MUNICIPAL COMPLEX PARKING CHANGES

As work begins renovating the historic municipal building attached to Harrisonburg City Hall, parking changes in the nearby lot will go into effect January 1, 2027, to allow for construction.

Key Changes:

Public parking permits will be unavailable for the Municipal Lot. These spaces (in yellow) will be reserved for City Hall employee parking during regular work hours Monday to Friday

Parking spaces near the Turner Pavilion (Farmers Market) will be converted to 2-Hour Public Parking, joining 2-Hour Public Parking spaces in front of City Hall (these spaces are in blue)

Additional parking impacts will take place behind City Hall and the Arts Council of the Valley building

Renovations to the Harrisonburg municipal building will increase space needed for City services and resources available to the community. The building formerly hosted local government departments prior to the construction of City Hall in 2015.
