**CITY OF HARRISONBURG
CAPITAL IMPROVEMENT PROGRAM
FISCAL YEAR 2025-2026 THROUGH FISCAL YEAR 2029-2030**

INTRODUCTION

Purpose

The Capital Improvement Program (CIP) is a multi-year production and scheduling of capital projects of \$50,000 or greater with an appropriate financing plan to fund these projects. Harrisonburg's CIP is prepared annually to facilitate planning and to set priorities among capital improvement needs over a subsequent five-year period. The CIP is designed to identify projects for all City departments for which in some cases funding has already been committed or is being sought for some time within the five-year planning period.

Planning for capital equipment and improvements is a matter of prudent fiscal management. Large, non-recurring capital outlays require special planning for several reasons. First, special planning is needed to ensure that assets are acquired in time to meet specific needs. Also, careful planning can seek to spread costs more comfortably over several years and avoid a large peak in expenditures during a single year. A comprehensively prepared CIP also shows a strong commitment to the City's Mission Statement.

It should be stressed that the CIP is not a budget, but a planning tool. The actual commitment of funds for any capital item comes with the approval of the annual budget for each fiscal year. However, the CIP should serve as an important planning tool for formulating the capital portion of the annual budget. Proposed projects within the CIP will likely not be funded exactly as outlined due to budgetary restraints. Nevertheless, all projects are important and need to be included in the planning document to have a clear vision of the City's long-term needs. Projects for Harrisonburg City Public Schools are also included within the document.

The information provided for each project does not include all the details of any particular project. However, environmental, resilient, and sustainable infrastructure such as, but not limited to, solar panels should be considered with all City projects.

Finally, it should be stressed that the CIP is not a static plan. It is a part of annual planning and programming. Each year, another year will be added to the planning period to maintain the five-year forecast horizon. Also, each year, costs and needs are reevaluated. The goal of this process is for the City to continue to meet its capital needs in a timely manner and to maintain a tradition of strong fiscal responsibility.

Format

Each project in the CIP is explained on a CIP Project Request Form, which categorizes the project belonging to a department and itemizes anticipated project costs along with a recommended funding schedule. When known or recognized, estimates of annual operating costs for projects are also presented. On the CIP Project Request Form, the requesting department provides a narrative description of the project along with marking any of the provided justification terms and phrases that pertain to the project.

The justifications terms are described below:

<u>Justification Terms</u>	<u>Justification Description</u>
1. Mandated	Project is clearly and specifically required by a federal or state mandate or court ruling.
2. Remove hazards	Makes possible the removal of an obvious or potential hazard to public health or safety.
3. Maintains existing service	Allows an existing standard of service to be maintained, where decreases in services would otherwise have been necessary.
4. Increased efficiency	Reduces operating costs.
5. Increased revenues	Makes possible a net gain in revenues available to the City.
6. Improves existing service	Makes possible an expansion or increase of an existing service or an improvement in the standard of an existing service.
7. New service	Makes possible the provision of a new service.
8. Convenience	Increases convenience or comfort.
9. Other	(Describe).

All capital projects were reviewed by the CIP Committee (City Manager, Deputy City Manager, Director of Finance, Director of Community Development, and Sustainability and Environmental Manager) in conjunction with department heads. Each project was assigned one of five priority codes, shown under the Project Code on the CIP Project Request Form. The priority codes are described as follows:

<u>Priority Code</u>	<u>Description</u>
1	Absolutely required.
2	Highly desirable, affects efficiency and effectiveness.
3	Desirable.
4	Marginally beneficial.
5	Not justified.

Only projects rated by the CIP Committee at “3” or higher are included in the recommended CIP. Projects rated “1” and “2” are summarized separately to reflect the projects that will be given the

highest budget priority. Also, based on the five-year projection of estimated revenues and expenditures contained in the Appendices, estimates of funds available for capital projects are located in the row titled “Cash/Funds Available for Capital” within the summary page for each major fund. The City will have a tough time funding all number 1 and 2 projects given the current revenue stream.

Lastly, the CIP Project Request Form includes a section titled Goals/Objectives, which includes one or more listed goals or objectives from the City’s Comprehensive Plan. Identifying how a project supports the goals and objectives of the Comprehensive Plan demonstrates the City’s commitment to its Mission statement and to its goals.

Appendices

Following the presentation of the various capital projects by fund are separate Appendices for the General Fund, Water Fund, Sewer Fund, School Transportation Fund, Public Transportation Fund, Sanitation Fund, and Stormwater Fund. Each appendix carefully tracks the history of these funds regarding past revenue levels and past expenditure levels. This history, along with obligated debt service requirements, is the basis for a five-year projection for each fund of new capital financing potential. There are many variables that could significantly increase or decrease the available funding. These projections are in the range of what can be reasonably expected and should be compared with the level of funding required to implement the recommended CIP.

Schedule

It is proposed that Planning Commission review the CIP in February 2025, when, if necessary, department heads will be available to answer questions. Planning Commission will develop its recommendation to City Council. City Council will receive Planning Commission’s recommendation at a public hearing in March 2025. Final adoption is scheduled for March 2025.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Network Replacement

Project Code: IT-NSP05

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 122011

Status: Active

Completion Date (FYE): 2026

Description:

Replace core network switches.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The current switches went end of sale 4/30/2022. HPE will no longer support them after 04/30/2026. These switches run the entire network and redundancy for the enterprise.

Alternative:

Do not replace them until they break. This will cause loss of productivity for an extended period.

Goals and Objectives

G 14

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: New Phone System
Project Code: IT-NSP07
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2027
Department: 122011 **Status:** Active **Completion Date (FYE):** 2027

Description:

Our reseller has informed us that our phone system will stop allowing modifications on 12/31/2024, new user licenses on 12/31/2025, and stop development and bug fixes on 12/31/2027.

Justifications:

- x-Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The loss of development and program support could lead us with a vulnerable or nonworking phone system. The plan is to perform an evaluation and needs assessment on the current phone system, and then create and RFP to procure and install a phone system before the 12/31/2027 deadline.

Alternative:

Continue to use the phone system until it fails.

Goals and Objectives

G 14

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Storage System Replacement

Project Code: IT-NSP02

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2027

Department: 122011

Status: Active

Completion Date (FYE): Ongoing

Description:

Replace the current storage device with another enterprise storage device. Move the current device to DR/BC (Disaster Recovery Business Continuity) status. Decommission the DR/BC storage device.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Most storage systems have a useful support life of 6-7 years. With this in mind and to spread the cost over several years, the department has implemented a 3 year replacement cycle for storage equipment. This means that the current unit will be within 3 years of the latest technology, and the backup unit will still be in support during its useful lifespan. This also allows for adjustments in capacity requirements.

Goals and Objectives

Alternative:

Purchase servers at end of life or when near capacity. Buying in this manner would cause emergency purchases, and increase the risk of data loss due to hardware failure. Alternative 2 would be to move to a hyperconverged infrastructure and upgrade half the units every three years.

G 14

Expenditures:

	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land								\$0
Construction								\$0
Equipment			\$130,000			\$130,000		\$260,000
Other Expenses								\$0
Total	\$0	\$0	\$130,000	\$0	\$0	\$130,000	\$0	\$260,000

Funding Sources:

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Document Management System

Project Code: IT-SP008

Project Priority: Priority 3

Project Type: ADDITION

Start Date (FYE): 2029

Department: 122011

Status: Active

Completion Date (FYE): 2029

Description:

Create an enterprise-wide document management system. This system will reduce the abundance of paper-based systems, increase efficiency of staff, increase document security, improve compliance with state and federal regulations.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

The City has acknowledged the need for a document management system. Several departments have started filing documents on network resources in anticipation of such a system, but many still have file folders full of paper documents that require manual intervention and little security. The new system will address the physical storage, manual retrieval process and security requirements for documents in the enterprise.

Goals and Objectives

- O 11.7
- G 14
- O 14.4

Alternative:

Continue to utilize manual processes in an inefficient manner. Research other methods of securing sensitive documents in the enterprise.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land								\$0
Construction								\$0
Equipment								\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Server Replacement
Project Code: IT-NSP04
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** Ongoing
Department: 122011 **Status:** Active **Completion Date (FYE):** Ongoing

Description:

Replace half of the active VMware Servers with new machines every three years.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

A PC Server life cycle lasts 5-7 years. With this in mind, the department has adopted a policy to replace half the server hardware every 3 years to ensure we have machines that can keep up with the latest technology.

Alternative:

Replace all servers every 5-6 years when they go end of life. This could lead to data loss due to hardware failure, and an inability to run the latest software due to hardware limitations. Moved to a hyper converged server array and upgrade a datacenter every 3 years.

Goals and Objectives

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Citizen Inquiry Application

Project Code: IT-SP012

Project Priority: Priority 3

Project Type: ADDITION & RENOVATION

Start Date (FYE): 2028

Department: 122011

Status: Active

Completion Date (FYE): 2028

Description:

Create an enterprise wide system for tracking Citizen inquiries and requests.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

Currently, requests are channeled to the proper department, but requests requiring multiple departments must be managed manually. There is also no oversight or tracking, so if management at departmental or City level wishes to get an update on an issue, it could possibly take considerable time and resources to find the answer.

Alternative:

Continue to manually track citizen inquiries separately in each department.

Goals and Objectives

- O 1.3
- G 2
- G 3
- O 4.1
- O 5.1
- O 5.3
- O 18.4

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Police Firearms Range Noise Reduction

Project Code: PD2024-1

Project Priority: Priority 3

Project Type: REPLACEMENT

Start Date (FYE): Beyond

Department: 310131

Status: Active

Completion Date (FYE): Beyond

Description:

Effectively manage noise pollution levels by providing a layer of noise absorption materials/structures around the properties of the existing police pistol deck and rifle deck.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Current sound mitigation technology has been proven to reduce firearm-related noise levels. The decibel levels that a firearm makes can have a negative effect on the surrounding community. We specifically started looking for a noise suppression solution with the building of the new Rocktown High school and the proximity to the HPD firing range. There are several sound reduction techniques used to deflect and dampen sound waves and are very effective when used in conjunction with each other. The most effective sound reducing strategies utilize high berms, covered shooting positions with sound damping materials, side berms, overhead baffles, and barriers behind the firing line.

Goals and Objectives

0 15.1

Alternative:

Workable alternative to this solution would be to procure an existing property and structure for an indoor range at an alternative site, again realizing the cost of sound proofing that structure.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0

Total	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Fire Station 4 Replacement

Project Code: HFD1

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 320132

Status: Active

Completion Date (FYE): 2028

Description:

Replacement of Fire Station 4, located on East Rock Street. The current fire station is approaching 50 years of age (2025). The station has significant structural issues which would require asbestos abatement, helical piers to stabilize ground below the existing station, addition of an ADA required elevator (if station remains a two-story station) and addition of a sprinkler system. The cost to value ratio of renovation vs. replacement suggests that the fiscally responsible action would be to replace the existing station with a modern fire station.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

In FY19-20, \$2,000,000 was assigned to the HFD budget for a renovation of Station 4. To date, \$150,000.00 was expended for Architectural design by ZHA Architects who (in 2020) estimated a renovation cost of \$4,000,000.00. With \$1,850,000.00 remaining in current budget, the FD and Facilities Planner recommend funding the replacement of the fire station at a total cost of \$6,500,000.00 in FY26 on the existing site. This recommendation is based on the most effective and efficient use of funds from a cost/benefit model. The Department will seek to include sustainable energy features in the new building to include rooftop solar panels to support power in the facility. The Department is requesting that the project funding be made available July 1, 2025.

Goals and Objectives

G 15
O 15.2

The design will evaluate appropriate sustainability and energy efficiency measures suitable for Fire Stations to meet the High Performance Buildings Act.

Alternative:

Retain \$1,850,000.00 to accomplish partial renovation of existing station within the confines of available funding. This would not alleviate current challenges, accelerating the need for additional funding in the future to replace the existing station.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning	\$150,000							\$150,000

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Apparatus Replacement Program
Project Code: HFD2
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2026
Department: 320132 **Status:** Active **Completion Date (FYE):** Ongoing

Description:

Comprehensive Apparatus Replacement Plan (2023-2038) for all major apparatus (e.g.: Engines, Ladder Trucks, Heavy Technical Rescue Vehicles) in the fleet. This plan calls for the ordering of a Ladder Truck in 2026, brush truck in 2027, and heavy technical rescue vehicle and hazardous materials vehicle in 2029. Importantly, the cost and lead time for delivery of apparatus is increasing at an alarming rate, prompting the recommendation to accelerate vehicle replacement. This will have a marginally positive impact on the Return on Investment (ROI) when older vehicles are sold for surplus. The current lead time for delivery of a new ladder truck is four (4) years.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The Fire Department has developed a comprehensive 15-year replacement plan for all major vehicles in the fleet. By creating a plan based on objective empirical data, the City can more effectively predict and plan for replacement of essential fire apparatus. All vehicles are tracked based on a combination of years of service, maintenance costs, out-of-service time, maintenance to value ratio and mileage.

Goals and Objectives

G 15
O 15.2

Alternative:

Maintain the status quo of replacing certain vehicles on a linear schedule, based on years of service factor.

Project Title: Protective Equipment Replacement

Project Code: HFD3

Project Priority: Priority 2

Project Type: NEW

Start Date (FYE): 2026

Department: 320132

Status: Active

Completion Date (FYE): Ongoing

Description:

Replacement of Firefighter Protective Equipment.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The purpose of this project is to ensure a regularly recurring replacement of structural firefighting personal protective equipment in accordance with national standards which recommends replacement of a set of PPE (based on normal wear and tear) every ten years.

Alternative:

Continue to use gear past recommended life span.

Goals and Objectives

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Fire Station 2 Replacement/Relocation

Project Code: HFD4

Project Priority: Priority 3

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 320132

Status: Active

Completion Date (FYE): 2032

Description:

This project would replace existing Fire Station #2 (built in 1984) and re-locate it to a more strategically appropriate position in the city. A new fire station would be able to meet the current and future needs of an important part of the city, improve response times in some segments of the district, while preserving the current response times to critical industry located on the south side of the community.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Fire Station #2 was built in 1984 on donated land. The current station is 40 years old, is undersized and outdated for current staffing, and is not in a preferable location based on data (for current and future demands for service). 70% of all calls require the apparatus to turn right out of the station and travel to South Main street. This creates a 2-3 minute arrival delay, adversely affecting the outcome of calls for service. The goal is to acquire land as soon as practical, followed by construction when possible.

Goals and Objectives

G 15
O 15.2

Alternative:

Maintain the current fire station at its current location.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land				\$1,000,000				\$1,000,000
Construction							\$8,000,000	\$8,000,000
Equipment								\$0
Other Expenses								\$0
Total	\$0	\$0	\$0	\$1,000,000	\$0	\$0	\$8,000,000	\$9,000,000

Funding Sources:	Prior	2026	2027	2028	2029	2030	Future	Total
General Revenue								\$0
Enterprise Revenue								\$0

Total	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Mobile Command Post

Project Code: HFD5/EM1

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2027

Department: 350532

Status: Active

Completion Date (FYE): 2031

Description:

This project requests the replacement of the City Mobile Command Post used by numerous city departments during natural and human-caused disasters as well as large-scale planned events.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- x-Other

Explanation:

The Office of Emergency Management, located within the Fire Department, is responsible for supporting continuity of operations during natural and human-caused disasters impacting the city. The current mobile command post lacks the technology infrastructure and workspace to support long-term operations and is poorly designed for events lasting longer than 2-3 hours. The vehicle is intended to support all aspects of city government, supporting unified command with representatives from numerous cooperating and coordinating agencies working together in one location to mitigate the impacts of catastrophic events. The vehicle is designed to ensure uninterrupted communications when traditional systems fail during disasters. The vehicle is also used during events to which the regional Hazardous Materials Mitigation Team and Urban Search and Rescue Team are deployed. Both teams are based in the Fire Department.

Goals and Objectives

- G 15
- O 15.2

Alternative:

Continue using the existing Mobile Command Post, which does not provide the most useful technological capabilities nor provide the needed workspace for long-term operations.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land								\$0
Construction								\$0
Equipment			\$2,500,000					\$2,500,000

Total	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Construct New ECC

Project Code: HRECC02

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2035

Department: 321132

Status: Active

Completion Date (FYE): 2035

Description:

Plan, construct, and equip a new Emergency Communications Center Building.

Justifications:

Mandated
Remove hazards
x-Maintains service
Increase efficiency
Increase revenues
Improves service
New service
Convenience
Other

Explanation:

The current facility was renovated in 2005 with a 10-15 year operational period. Operational, technical, and administrative areas are at maximum capacity with no growth space possible. Moving this forward to 2028 so that we can do some research and update the plan.

The design will evaluate appropriate sustainability and energy efficiency measures suitable for data centers and/or 24/7 emergency operations centers.

Goals and Objectives

Alternative:

None.

G 15
O 15.2

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Cisco Switch Hardware Refresh Program
Project Code: HRECC10
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2026
Department: 321132 **Status:** Active **Completion Date (FYE):** 2026

Description:

Replace aging Cisco switches on various parts of the network.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Following the 2024 evaluation of the network needs & future proofing - CISCO CATALYST 9500 - NETWORK ESSENTIALS - SWITCH - 48 PORTS (MFG #: C9500-48Y4C-E) WAS SELECTED. FOR 9 CISCO CATALYST 9500 DEVICES.

Alternative:

Could be replaced with a less expensive model however, ECC suffered a network intrusion event in the fall of 2020 and it is important to continue to harden our various networks to prevent, detect, and respond to any future attacks.

Goals and Objectives

G 15
O 15.2

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land								\$0
Construction								\$0
Equipment		\$230,000						\$230,000
Other Expenses		\$11,500						\$11,500
Total	\$0	\$241,500	\$0	\$0	\$0	\$0	\$0	\$241,500

Funding Sources:	Prior	2026	2027	2028	2029	2030	Future	Total
General Revenue		\$120,750						\$120,750
Enterprise Revenue								\$0
Bond Proceeds								\$0
Grants								\$0
Capital Project Fund								\$0
Other Revenue		\$120,750						\$120,750
Total	\$0	\$241,500	\$0	\$0	\$0	\$0	\$0	\$241,500

Operating Impacts:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: UPS Replacement

Project Code: HRECC13

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 321132

Status: Active

Completion Date (FYE): 2026

Description:

Update the 2004 Uninterruptible Power Supply (UPS).

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Based on recent research, the total estimated cost has increased from the projected \$400,000 to \$550,000. This includes the ups system, batteries, installation, and projected price increases. This setup will provide up to 6 hours of backup power, ensuring continuous operation for the PSAP. Routine maintenance, battery replacements, and cooling infrastructure should be factored into long-term planning.

Alternative:

None. Failure to update this aging system runs the risk of causing major damage to the numerous computers/servers/phones/etc in a power failure. Due to the age of the system, confidence in the system to maintain or extend the life of the batteries is very low. New batteries were purchased at the end of 2022 but their shortened life span (due to the age of the unit) puts them end of life in 2027

Goals and Objectives

G 15
O 15.2

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Tyler CAD Cloud
Project Code: ECC26P01
Project Priority: Priority 2 **Project Type:** IMPROVEMENT **Start Date (FYE):** 2026
Department: 321132 **Status:** Active **Completion Date (FYE):** 2026

Description:

Replaces projects HRECC12 & half of HRECC14. Migrate from on-premise CAD system to Tyler Cloud environment (removing the need to own maintain & replace nearly 20 servers and backup solutions). Improves redundancy and provides nearly constant uptime.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Higher availability, more secure, and more cost-effective solution is the transition of the Tyler Systems to the AWS GOVCLOUD environment. This will streamline and simplify budgetary and planning processes, reduce hardware and licensing costs, improve network security and redundancy, and ultimately result in net savings. This migration will enable a reduced overall annualized cost and more stable long-term budgeting. The updated project is estimated to have a one-time cost of less than \$175,000, with additional details to be provided in a more specific project that addresses the transition to Tyler AWS GOVCLOUD / SAAS.

Goals and Objectives

- G 15
- O 15.2

Alternative:

Alternative: maintaining the current on-premise systems would continue to incur high hardware maintenance costs and lead to less flexibility in scaling to future demands. Failure to migrate to a more cost-effective solution would also limit improvements in network security and redundancy.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Primary Site Backup Radio Replacement

Project Code: ECC26P03

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 321132

Status: Active

Completion Date (FYE): 2026

Description:

Replace XL-100 (20) back-up radios at the Primary ECC with XL-200m (15) radios. Decommission the XL-100's and re-deploy to the Back-Up ECC site.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The current XL-100 single-band backup radios at the primary ECC site are nearing the end of their service life, cannot be integrated into the symphony console, and require specialized connectors and desk microphones, which add operational complexity. Replacing the 20 XL-100 radios with 15 XL-200m multiband radios with LTE. These radios will connect to the symphony console for hands-free operation, use standard ethernet connectivity, and provide multiband and LTE capability, improving connectivity and reducing the amount of required equipment.

Goals and Objectives

G 15
O 15.2

The XL-200m radios offer multiband communications across multiple frequency bands, clear audio with advanced noise cancellation, an intuitive user interface, and connectivity options including WI-FI, Bluetooth, GPS, and broadband hotspot capabilities. They are certified on both AT&T and Verizon networks and are FirstNet ready, ensuring secure and reliable communication. The existing XL-100 radios will be reallocated to the backup center for continued use.

This upgrade improves operational efficiency, enhances interoperability, reduces equipment and maintenance costs, and provides greater flexibility for disaster recovery. It also ensures the removal of outdated equipment and maintains reliable service while streamlining operations. Key features of the XL-200m include multiband capability, advanced noise cancellation, hands-free integration with the symphony console, and multiple connection options, making it a critical upgrade for ensuring efficient and reliable communications in the ECC.

Alternative:

Continuing to use the current XL-100 single band radios would result in operational complexity and increased maintenance costs as they near end of life. Failure to upgrade will also limit connectivity options and hinder integration with the symphony console, reducing operational efficiency.

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Radio Tower Modifications
Project Code: ECC26P06
Project Priority: Priority 2 **Project Type:** RENOVATION **Start Date (FYE):** 2026
Department: 321132 **Status:** Active **Completion Date (FYE):** 2027

Description:

Related to HRECC03 Replace Microwave Radio System. Four (4) of the eleven (11) towers have failed the structural analysis and must be modified to the current revision before being allowed to install the new microwave equipment.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Create the modification design in 2026 to plan how the 4 towers would be modified to meet current structural requirements to allow for microwave installation. Physically modify the 4 towers bringing them up to current revision specifications in 2027.

Alternative:

We can attempt to identify a different location on these towers for the new microwave however, this could change the location of the microwave on a corresponding tower and cause that tower to need modifications. We could not upgrade the microwaves however the equipment was already purchased as part of the HRECC03 replacement project.

Goals and Objectives

G 15
O 15.2

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Feedstone Radio Tower Power
Project Code: ECC26P07
Project Priority: Priority 2 **Project Type:** RENOVATION **Start Date (FYE):** 2026
Department: 321132 **Status:** Active **Completion Date (FYE):** 2027

Description:

Feedstone radio tower is solar and generator powered. The batteries and the solar panels have reached end of life. The site requires additional power capacity to run the needed upgraded radio equipment. Recommendation is to upgrade the power in 2028 and the radio components in 2029

Justifications:

Mandated
 Remove hazards
 x-Maintains service
 x-Increase efficiency
 Increase revenues
 Improves service
 New service
 Convenience
 Other

Explanation:

Replace the end of life hydrogen batteries that are currently beyond end of life. The batteries have reduced power storage requiring the generator to run more often, the batteries are also leaking hydrogen causing alarms and requiring responding personnel to air the structure out before being able to enter for routine or emergency maintenance. The amount of power capacity must be increased to support the upgraded radio network system components that need to be installed. This site was not upgraded with the others as it could not handle the power load. The components at the site are beyond end of life and will shortly not be supported by L3.

Goals and Objectives

G 15

Alternative:

We can continue to run the site as is until L3 ceases to support the equipment on site, exact date is not known. However, the site is drawing more generator power and the batteries continue to lose storage power and leak hydrogen into the space.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Public Safety Building Flooring Replacement
Project Code: FMPSB01
Project Priority: Priority 3 **Project Type:** RENOVATION **Start Date (FYE):** 2026
Department: 9101 **Status:** Active **Completion Date (FYE):** 2027

Description:

The current flooring (60,000 sf) within the Public Safety Building (PSB) includes flooring from 1983 to a mismatched flooring system that has been renovated and updated over the years. This project would determine a suitable building or floor wide flooring system that would be installed on a floor by floor basis. The cost is separated into 2 different budget years, with HPD in 2026, and ECC and HFD in 2027.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

With the 24 hour, 365 day operations located within the PSB, the current flooring system is showing signs of age and deterioration. The previous strategy has been to have each department maintain their flooring, which has resulted in a mismatch array of flooring with various levels of durability. Due to this it has become apparent that a better managed system is needed to provide a work space suitable for the style of operations that occur in the PSB.

Goals and Objectives

- G 14
- O 14.5
- G 15
- O 15.2

Alternative:

Do not complete project.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Courts Building Project

Project Code: GP012428

Project Priority: Priority 2

Project Type: RENOVATION

Start Date (FYE): 2025

Department: 9101

Status: Active

Completion Date (FYE): 2029

Description:

To make improvements to provide adequate facilities for employees at the Harrisonburg-Rockingham General District Court.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Anticipated growth in Rockingham County and the City of Harrisonburg over the next five to ten years will exceed the space needs of current facilities. Current court facilities will not adequately accommodate anticipated growth over the next five to 10 years.

The amount of money requested is the City's share of the expenses.

Alternative:

Maintain existing facilities.

Project Title: Renovation of Municipal Building

Project Code: MGR3

Project Priority: Priority 2

Project Type: RENOVATION

Start Date (FYE): 2024

Department: 9101

Status: Active

Completion Date (FYE): 2027

Description:

Renovation of building currently at 345 South Main Street. The renovations will be designed to meet the Virginia High Performance Building Act. Solar panels or other renewable energy technology will be evaluated per the High Performance Building Standards.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- x-Other

Explanation:

This will provide renovations to the building for code compliance, energy efficiency, and additional work space for City office expansion.

Alternative:

Maintain the building in its existing condition.

Project Title: Harrison House Renovations

Project Code: MGR4

Project Priority: Priority 3

Project Type: RENOVATION

Start Date (FYE): 2015

Department: 9101

Status: Active

Completion Date (FYE): 2027

Description:

Remove a portion of the Hall House and construct a Terrace Area to highlight the Harrison House. Utilize VA250 grant funds to perform a historical restoration on the Harrison House.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- x-Other

Explanation:

Project includes research, archeological excavation, documentation and restoration of building, gardens, etc. to try to restore property as much as possible to "original" conditions. The Terrace Area will provide a desired connection to allow for visitors to see and use the space.

Alternative:

Loss of significant historical property.

Project Title: Social Services Complex

Project Code: GP012630

Project Priority: Priority 2

Project Type: CONSTRUCTION

Start Date (FYE): 2029

Department: 9101

Status: Active

Completion Date (FYE): 2030

Description:

The Department of Social Services, currently located at 110 North Mason Street, must find additional space for their operations. At this time, it is unknown as to the exact location of where the additional space would be accommodated.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

A space needs assessment by Mosely Architects has determined that the Department of Social Services will need to expand their space by year 2030.

Alternative:

Maintain existing facilities.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Country Club Road (2) bridges (43372)

Project Code: PWSTBG03

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): FY26

Department: 410241

Status: Active

Completion Date (FYE): Beyond

Description:

Replace (2) two bridges over Sieberts Creek.

Structure #6585 is located at the Chaney Concrete entrance off of Country Club Road. This structure has a rating of 5 out of 10, and eligible for VDOT's State of Good Repair (SGR) funding. An SGR grant will be applied for in FY25 with possible funding in FY26-FY30. The reconstructed structure will add a pedestrian/bicycle facility, which will need to be funded with local funds, as SGR funds will only replace the structure in-kind. Meaning that if a pedestrian/bicycle facility is not present at the time of reconstruction, then SGR funds cannot be used to add those features.

Structure #6586 is located near Spotswood Trailer Park on Country Club Road and will be improved to address future structural conditions and planned roadway typical sections.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Improve the condition rating of the structure, and improve drainage concerns in the immediate area.

Project Title: Water Street Bridge

Project Code: PWSTBG09

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): Beyond

Department: 410241

Status: Active

Completion Date (FYE): Beyond

Description:

Rebuild Water Street bridge over Norfolk Southern Railroad. Bridge owned by Norfolk Southern Railroad, however Public Works is exploring various funding options with VDOT for this bridge replacement.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Recommended by annual bridge inspection program. Funds by Railroad or potential VDOT grants. Bridge needed to provide emergency route east/west downtown with trains blocking grade crossings.

Alternative:

Reduce load rating on the structure and/or remove vehicle traffic from the structure.

Project Title: Bridge Preventive Maintenance Program (43372)
Project Code: PWSTRM
Project Priority: Priority 1 **Project Type:** RENOVATION **Start Date (FYE):** 2011
Department: 410241 **Status:** Active **Completion Date (FYE):** ongoing

Description:

Preventive maintenance of bridge structures. Bridges are identified on a yearly basis following the Annual Bridge Inspections.

Justifications:

- x-Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Placing sealant on deck surface, repairing and sealing cracked concrete, painting as needed, repairing settled approach pavement and adjacent sidewalk repair. Preventive maintenance will extend bridge life approximately 25 years.

Alternative:

Delay preventive maintenance, which may result in more expensive repairs.

Project Title: Annual Curb & Gutter and Sidewalk Replacement

Project Code: PWSTCGSW

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): Ongoing

Department: 410241

Status: Active

Completion Date (FYE): Ongoing

Description:

Replacement of curb & gutter and sidewalk segments throughout the City as determined by Public Works annual inspection process.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Segments of curb & gutter and sidewalk are evaluated on an annual basis by Public Works staff to determine if replacement is needed. Condition rating is based on both safety and structural condition of the curb & gutter and sidewalk segments.

Alternative:

None.

Project Title: Annual Street Paving Program (43374, 43376)
Project Code: PWSTPA1
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** Ongoing
Department: 410241 **Status:** Active **Completion Date (FYE):** Ongoing

Description:

Repaving of existing streets--139.4 centerline miles of street currently in inventory.

Justifications:

Mandated
 Remove hazards
 x-Maintains service
 x-Increase efficiency
 Increase revenues
 Improves service
 New service
 x-Convenience
 Other

Explanation:

Resurfacing to provide renewal to street surface, expected life of surface 15 years. Streets are scheduled in accordance with annual street pavement management program. Location, traffic volume, pavement conditions, and use determine priority.

Alternative:

Use other types of surface seals, average life of plant mix overlay is 15 years. Seal coats usually last seven years maximum, however, they are less expensive.

Project Title: Chicago Avenue and Gay Street Signal Upgrade
Project Code: PWTELU04
Project Priority: Priority 3 **Project Type:** REPLACEMENT **Start Date (FYE):** Beyond
Department: 410741 **Status:** Active **Completion Date (FYE):** Beyond

Description:

Chicago Avenue and Gay Street signal upgrades. This project would replace this span wire intersection with an upright and mast arm intersection with pedestrian facilities.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

This is a span wire intersection that would benefit from an upgrade to upright and mast arm as well as the addition of pedestrian signals.

Alternative:

Keep and maintain existing infrastructure.

Project Code: PWTEM02

Project Priority: Priority 2

Project Type: SYSTEM UPGRADE

Start Date (FYE): 2021

Department: 410741

Status: Active

Completion Date (FYE): Beyond

Description:

Upgrade of video detection system utilized on traffic signals throughout the City. The upgraded systems provide increased functionality, with improved detection capabilities, real-time traffic counts, and improved communication interfaces.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Specific equipment includes:

- 1) Permanent traffic data collection stations.
- 2) Traffic cameras for incident management and assessment of traffic & roadway conditions.
- 3) Remote access and configuration of the vehicle detection system saves signal crew time and helps resolve detection issues faster using remote troubleshooting. This equipment also provides access to video feeds from the vehicle detection cameras, which are used for traffic management.

Goals and Objectives

- G 13
- O 13.1
- O 13.2

Alternative:

Expand operations with additional staff hours and equipment resources to perform piecemeal traffic studies. Use overtime hours to have staff troubleshoot video detection problems on-site during off hours instead of recording it using remote access and reviewing during working hours.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Enhanced Signage Equipment

Project Code: PWTEM05

Project Priority: Priority 3

Project Type: NEW

Start Date (FYE): 2022

Department: 410741

Status: Active

Completion Date (FYE): Beyond

Description:

To provide enhanced signage for various traffic related issues that may arise. Enhanced signage are signs that have unique features that provide additional driver awareness through lights or messages. Examples of enhanced signage would be Speed Radar signs, Rapid Flashing Pedestrian Beacons, LED Embedded advisory signs, and signs with additional flashing lights attached. Public Works has developed installation metrics for each of these signs, and those metrics would need to be met prior to the implementation of each type of sign.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Enhanced signage provides a means of better communication to drivers of a situation where their greater awareness is required. They do this by providing real-time feedback as with a speed radar sign, or with flashing lights to grab the driver's attention. This program would allow for Public Works to implement these signs throughout the City as needed and warranted based on established metrics.

Goals and Objectives

- G 13
- O 13.1

Alternative:

Continue standard street sign program.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Traffic Signal Timing Program

Project Code: PWTEM06

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2026

Department: 410741

Status: Active

Completion Date (FYE): Beyond

Description:

The Federal Highway Administration (FHWA) recommends that for arterial corridors the signal timing be reviewed and updated at a minimum once every 5 years. This is due to changes in traffic patterns, new and redeveloped properties, and improvements in technology. The City has 5 arterial corridors that would require updates every 5 years. Those corridors are East Market Street, Virginia/High Street, Port Republic Road, South Main Street, and Reservoir Street.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Signal timing and optimization can improve the throughput, reduce travel time, reduce congestion during peak hours, and provide a reduction in green house gas emissions. This project would split these 5 corridors into 3 separate projects, with East Market Street and Virginia Avenue/High Street being performed together, South Main Street and Port Republic Road being performed together and Reservoir Street being performed by itself.

Goals and Objectives

G 13
O 13.1

Alternative:

The corridor timings would become outdated and less efficient.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Traffic Signal Pole Anchor Bolts UT Inspection

Project Code: PWTEPBUT

Project Priority: Priority 1

Project Type: REPAIR

Start Date (FYE): 2022

Department: 410741

Status: Active

Completion Date (FYE): Beyond

Description:

Ultra Sound testing of traffic signal pole anchor bolts for all of the 88 intersections consisting of 340 traffic signal poles.

Justifications:

- x-Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

VDOT/FHWA mandated inspection every four years to ensure that anchor bolts are not cracked or damaged. Inspections are needed to ensure safety of the public and liability. PW traffic engineering crews perform all remaining inspections of the traffic signal poles.

Alternative:

None.

Project Title: SUPPORT ADDITIONS PURCHASING /CENTRAL STORES
Project Code: PWCS1
Project Priority: Priority 3 **Project Type:** NEW **Start Date (FYE):** Beyond
Department: 772141 **Status:** Active **Completion Date (FYE):** Beyond

Description:

Expand existing building to provide weatherproof and safe storage for pipe and other materials. Central Stores continues to expand the scope of it's service to the various departments and finds itself needing more storage space for large items.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Expand existing building. Storage needed for larger (primarily PVC material) parts. Most large items are ordered for specific projects and stored until needed on project.

Alternative:

None.

Project Title: Downtown Streetscape Project

Project Code: PWSTP01

Project Priority: Priority 3

Project Type: REPLACEMENT

Start Date (FYE): 2015

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

This project is part of the Harrisonburg Downtown Streetscape Plan. Portions of sidewalks along Main Street and around Court Square will be replaced as maintenance allows. The replaced sidewalks will adhere to the streetscape plan.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- x-Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

Replace curb, gutter, sidewalks, and crosswalks.

Alternative:

Replace with a standard sidewalk.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Pleasant Valley Road

Project Code: PWSTP03

Project Priority: Priority 3

Project Type: REPLACEMENT

Start Date (FYE): Beyond

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Improve street from east of Early Road to City limits to better accommodate truck traffic to industrial areas and relocated Rockingham County Landfill entrance; the project will include a center turn lane, wider lanes, bicycle and pedestrian facilities, storm drain system and improved turning radii at intersections.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Improve drainage, replace pipe culverts, improve pavement, rebuild shoulders. Funding is planned to be 100% VDOT SmartScale for Planning, ROW and Construction. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

Alternative:

Continue to operate with a two-lane roadway.

Project Title: South Main Street and I-81 Exit 243 Interchange Improvements

Project Code: PWSTP05

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2023

Department: 9101

Status: Active

Completion Date (FYE): 2029

Description:

Improvements to South Main Street from Exit 243 interchange to Reedy Circle. Improvements are in conjunction with the planned Bluestone Development. Signalization of South Main Street and Reedy Circle to be funded by Bluestone Development. Improvements to the Exit 243 interchange to be cost-shared between the City and Bluestone Development. Exit 243 improvements included adding dual left turn lanes and right turn lane from SB South Main Street to the on ramp, and small on and off ramp lane changes. Smart Scale application.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Improve traffic flow and safety at the Exit 243 interchange and at Reedy Circle due to the planned Bluestone Development.

Goals and Objectives

Alternative:

None.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Chicago Avenue and Waterman Drive Improvements

Project Code: PWSTP06A

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2024

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

A corridor study is currently underway that will outline needed improvements along Chicago Avenue and Waterman Drive. Additionally, potential shared use path alignments will be identified that would improve connectivity between the neighborhoods surrounding Chicago Avenue and Waterman Drive and the Northend Greenway and/or Friendly City Trail.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Chicago Avenue and Waterman Drive are located in the Park View Area and serve many City residents as well as Eastern Mennonite University. These corridors are continually mentioned in both local and regional transportation studies as corridors that need improvement. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

The feasibility study would allow the City to be better prepared for IIJA funds as they become available in the coming years.

- G 13

Project Title: Mt. Clinton Pike Widening
Project Code: PWSTP06B
Project Priority: Priority 3 **Project Type:** IMPROVEMENT **Start Date (FYE):** Beyond
Department: 9101 **Status:** Active **Completion Date (FYE):** Beyond

Description:

Improve Mt. Clinton Pike as a two-lane facility with bicycle/pedestrian facilities, between Chicago Avenue and Lincolnshire Drive in Rockingham County. Requires retaining wall from Smith Street to west City Limits.

Justifications:

Mandated
 x-Remove hazards
 x-Maintains service
 x-Increase efficiency
 Increase revenues
 Improves service
 New service
 Convenience
 Other

Explanation:

Street Improvements to provide safer travel and provide improved bicycle and pedestrian access in the Park View area. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

Alternative:

Maintain existing lanes and infrastructure while maintaining the existing unsafe features.

Project Title: North Liberty Street

Project Code: PWSTP08

Project Priority: Priority 3

Project Type: ADDITION & REPLACEMENT

Start Date (FYE): Beyond

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Reconstruct and widen North Liberty Street from Edom Road to the North City Limits. Install storm drains, curb & gutter, bicycle lanes & sidewalks or shared use path.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Improvement to the roadway is to serve industrial and commercial development in the area. Several developments depend on truck transportation for their businesses along this street. Street improvements will support existing and future development. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Project Title: Carlton Street Improvement

Project Code: PWSTP09

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2029

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Improve Carlton Street between East Market Street and Reservoir Street to replace curb and gutter, sidewalks and entrances to meet ADA standards, and replace/construct storm drain facilities. The street width will be reduced to allow for existing utility poles to be located within the buffer space between the new curb and gutter and new sidewalk.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

To improve the transportation network in an area with high pedestrian volumes near an elementary school with inadequate facilities. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022. Funding would utilize VDOT maintenance funds.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Bluestone Trail

Project Code: PWSTP11

Project Priority: Priority 2

Project Type: NEW

Start Date (FYE): 2016

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Phase I: Complete

Phase II: Provide pedestrian/bike connection from Stone Spring Road to Rocktown High School. Smart Scale application.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

Allows people living in university housing developments and multi-family developments in the southern end of the city to reach destinations by alternative means of transportation that is separated from motor vehicle traffic. Will provide safe and desirable bicycle and pedestrian access to Rocktown High School and other destinations in the southern area of the City. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

Project Title: Martin Luther King Jr Way Widening

Project Code: PWSTP20

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2016

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Martin Luther King Jr Way from 300' west of Ott Street intersection to 450' east of Ott Street, widen street to 5 lanes to create dedicated left turn lane at Ott Street intersection.

Justifications:

Mandated
-Remove hazards
-Maintains service
-Increase efficiency
 Increase revenues
-Improves service
 New service
 Convenience
 Other

Explanation:

Project to provide improved capacity and turn lanes for JMU campus at the time of JMU campus expansion beyond the current footprint. Improves efficiency of bicycle & pedestrian safety. Project to be developed cooperatively with JMU.

Alternative:

Maintain existing infrastructure and lanes.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Neff Avenue Bicycle and Pedestrian Improvements

Project Code: PWSTP23

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2028

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Project #1 - Construct a 10' wide asphalt shared-use path from Port Republic Road to the mid-block crosswalk to the Arboretum along the southeast side of Neff Avenue. FY28 - Beyond

Project #2 - Reconfigure Neff Avenue between Turner Ashby Lane and Reservoir Street to allow for the installation of an improved mid-block crossing. FY26-FY28

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- x-Other

Explanation:

As the Neff Avenue corridor grows and with the potential development of higher-density housing, this improved bicycle and pedestrian facility will be needed. Current conditions at the mid-block crossing have changed to the point that improvements are needed to maintain a safe crossing.

Goals and Objectives

Alternative:

None.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Country Club Road

Project Code: PWSTP25

Project Priority: Priority 3

Project Type: IMPROVEMENT

Start Date (FYE): Beyond

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Phase I Country Club Road (Formerly MLK Way Extension) (Beyond)- From Blue Ridge Drive to the I-81 overpass. Roadway will be 2 lanes with center turn lane, sidewalk and shared use path.

Phase II Country Club Road (Beyond)- I-81 Bridges to East Market Street at Valley Mall. Widen roadway to 2-lanes with turn lanes at intersections of Keezletown Road. Install sidewalk and shared use path.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Project to improve traffic flow, provide improved left turn lanes, reduce delays, and improve transit operations. Improve drainage ditch parallel to the roadway. Project to be built in phases to coordinate with development and VDOT I-81 Bridge replacement schedule. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 13
- O 13.1
- O 13.2
- O 13.3

Alternative:

Allow increased traffic to deal with delays.

Project Title: Linda Lane Widening

Project Code: PWSTP28

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): Beyond

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Construct four-lane facility, including turn lanes with medians, sidewalk, shared-use path with curb and gutter, from East Market Street to Country Club Road. Developer participation in construction from the Quarry development.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Explanation:

Provide adequate access to new planned developments. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Alternative:

Use existing insufficient facilities.

Goals and Objectives

- G 13
- O 13.1
- O 13.2

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Smithland Road
Project Code: PWSTP28A
Project Priority: Priority 2 **Project Type:** IMPROVEMENT **Start Date (FYE):** Beyond
Department: 9101 **Status:** Active **Completion Date (FYE):** Beyond

Description:

Realign the intersection of Smithland Road and Old Furnace Road to make Smithland Road the through movement and Old Furnace (from the County) the stop condition. Construction of a shared use path from this intersection to connect to the existing shared use path located along Smithland Road near Smithland Fields.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

This intersection is currently configured so that Smithland Road (from City) has to stop and Old Furnace Road has the through movement. However, this intersection has poor sight distance due to the curvature of the roadway and the location of the Smithland Road intersection. This project would realign this intersection to improve safety. The shared use path would be an extension of a current shared use path in the City that connects to Country Club Road. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 13
- O 13.1
- O 13.2

Alternative:

Use existing insufficient facilities.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Reservoir Street Sidewalk

Project Code: PWSTP40

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2026

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Project #1 - Construct a five-foot sidewalk on north side of Reservoir Street between the Harrisonburg Crossing entrance and Dutch Mill Court. Smart Scale application. FUNDED.

Project #2 - Beyond - Construct a five-foot sidewalk on the north side of Reservoir Street between Dutch Mill Court to MLK Jr. Way. Funding for this component is not reflected below.

Project #3 - Beyond - Construct a five-foot sidewalk on the north side of Reservoir Street between Hawkins Street and Franklin Street. Funding for this component is not reflected below.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Project #1 and #2 - Pedestrians utilize the north side of Reservoir Street heavily and have worn a path along the side of the road. While a sidewalk exists on the south side of the roadway, residential communities are on the north side of the roadway and pedestrians walk on this side of the street to gain access to shopping areas east of I-81.

Project #3 - Due to the COVID-19 Pandemic and limited school bus capacity, Harrisonburg City Schools have begun an initiative where students within specified walking distances of schools would be required to walk and would not be provided a bus. This initiative would remain in place after the pandemic due to the overall benefits to the school system. This segment of Reservoir is within the Spotswood Elementary School area and would meet this distance requirement if sidewalks were located along this segment of Reservoir St, which would connect Hawkins and Franklin to the recently upgrade crossing of Reservoir St at Hawkins Street.

This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 7
- O 7.1
- O 7.2

Alternative:

Continue to have pedestrians walking between the curb of a 4-lane facility and its guardrail, and down a steep slope to reach Harrisonburg Crossing. Wait for redevelopment to occur at Harrisonburg Crossing and on the north side of the I-81, at which time the developer would be required by the Design and Construction Standards Manual to build the sidewalk.

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Port Republic Road Sidewalk - Main Street to Crawford Avenue
Project Code: PWSTP47
Project Priority: Priority 2 **Project Type:** ADDITION **Start Date (FYE):** Beyond
Department: 9101 **Status:** Active **Completion Date (FYE):** Beyond

Description:

Construct a five-foot wide sidewalk on the south side of Port Republic Road between South Main Street and Crawford Avenue. Relocate crosswalks at the intersection of Port Republic Road and South Main Street to be perpendicular to shorten crossing distance and reduce pedestrian/vehicle conflicts.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Due to the close proximity to JMU, demand for pedestrian facilities is high along Port Republic Road. Construction of a sidewalk on the south side of the road increases safety for pedestrians who would otherwise walk in the road or need to cross four vehicle travel lanes to reach a sidewalk. Pedestrians have frequently been observed walking in the street on this arterial roadway. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 13

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Port Republic Road - Forest Hill Road

Project Code: PWSTP50

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): Beyond

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

The project will construct a second left turn lane on Forest Hill Road at Port Republic Road, resulting in the approach having one right turn lane and two left turn lanes. The project will construct a right turn lane on Port Republic Road at Forest Hill Road. The project will re-construct sidewalk impacted by these changes, and will add sidewalk on Forest Hill Road. The project will construct a concrete median on Port Republic Road from Forest Hill Road to Hunters Road. The project will construct a shared use path on a parallel alignment behind two properties. A boarding and alighting area will be constructed for the bus stop on the east side of Port Republic Road. A pedestrian refuge island will be installed at the intersection with the I-81 northbound on-ramp.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The Port Republic Road Safety and Operations Study evaluated the Port Republic Road corridor and provided many recommendations for changes to improve safety and operations. Geometric changes were recommended for this intersection to increase safety and reduce congestion on this high-traffic corridor.

Goals and Objectives

- G 13
- O 13.1

Alternative:

Maintain existing infrastructure and lanes.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Old Furnace Road Sidewalk Gaps

Project Code: PWSTP52

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2028

Department: 9101

Status: Active

Completion Date (FYE): Future

Description:

Fill sidewalk gaps between Summit Street and North 38 apartment complex sidewalk and add bike lanes. Potential for VDOT funding.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

This project will improve pedestrian safety, and increase walkability between a variety of housing types and downtown. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Alternative:

Do not complete planned project.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Central Avenue Sidewalk

Project Code: PWSTP53

Project Priority: Priority 2

Project Type: CONSTRUCTION

Start Date (FYE): 2027

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Construction of sidewalk and ADA ramps along Central Avenue between South Avenue and Laurel Street.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Explanation:

Due to the COVID-19 Pandemic and limited school bus capacity, Harrisonburg City Schools have begun an initiative where students within specified walking distances of schools would be required to walk and would not be provided a bus. This initiative would remain in place after the pandemic due to the overall benefits to the school system. This segment of Central is within the Keister Elementary School area and would meet this distance requirement if sidewalks were located along this segment of Central Avenue. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 7
- O 7.1
- G 13
- O 13.1
- O 13.2

Alternative:

Not require students within this neighborhood to walk to Keister due to the lack of a safe accommodation.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning			\$70,000					\$70,000
Land				\$50,000				\$50,000
Construction							\$350,000	\$350,000
Equipment								\$0
Other Expenses								\$0
Total	\$0	\$0	\$70,000	\$50,000	\$0	\$0	\$350,000	\$470,000

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Mt. Clinton Pike Corridor Safety Project

Project Code: PWSTP56

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2028

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Construct a single-lane roundabout at the Mt. Clinton Pike and Acorn Drive intersection. The roundabout will include shared use path on all sides, with appropriate crosswalks, to accommodate those walking or biking around the roundabout. Sidewalk will be constructed along the north side of Mt. Clinton Pike between Acorn Drive and a sidewalk that will be built by others along the frontage of the corner parcel at North Main Street. Additional sidewalk will be constructed along the east side of Acorn Drive between Mt. Clinton Pike and existing sidewalk 450' north of Mt. Clinton Pike. Smart Scale application

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Explanation:

The Mt. Clinton Pike and Acorn Drive intersection has been identified as a "potential for safety improvement" (PSI) location by VDOT, due to crashes that have occurred there. An evaluation of the intersection shows that delay for drivers on Acorn Drive will increase significantly if there are no changes to the intersection. A roundabout would address the safety concern at the intersection and reduce delay for those driving through the intersection. The additional sidewalks and shared use paths along Mt. Clinton Pike and Acorn Drive will increase options for people getting to the jobs and destinations located in this area. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 13
- O 13.1
- O 13.2

Alternative:

Maintain existing infrastructure.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Solar Implementation Plan

Project Code: PWSTP57

Project Priority: Priority 3

Project Type: IMPROVEMENT

Start Date (FYE): 2024

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

An initial solar feasibility study was completed in 2024 that provided estimated system installation details for each city facility. The goal is to implement the highest priority solar systems. These include Turner Pavilion, Lucy F. Simms Continuing Education Center, Central Stores, Recycling Center, and HDPT.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Construct PV solar systems on City facilities based on Solar Implementation Plan. This project would achieve progress towards the goal of reducing greenhouse gas emissions identified in the City's Environmental Action Plan approved by Council on June 14, 2022.

Alternative:

Not construct solar systems.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: South Main Street Study Additional Improvements

Project Code: PWSTP61

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): Beyond

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

The project includes multiple improvements on South Main Street. Sidewalk would be built along the west side of South Main Street between the existing sidewalk at Pleasant Valley Road and West Kaylor Park Drive. Median would be built between Baxter Drive and Southgate Court. Sidewalk would be constructed on the east side of South Main Street between the two intersections of East Kaylor Park Drive and South Main Street. Sidewalk would be constructed on the east side of South Main Street between East Kaylor Park Drive and Mosby Road. Boarding/alighting areas would be constructed with the sidewalk at all bus stops.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Explanation:

A 'Project Pipeline' study, funded by VDOT, was completed to evaluate safety, operations and multimodal infrastructure on this corridor. This project includes multiple recommendations from that study. Along with addressing existing issues, there is a desire to improve the corridor due to the traffic from Rocktown High School. This project would achieve progress towards meeting the Sustainable Transportation Targets in the City's Environmental Action Plan approved by Council on June 14, 2022.

Goals and Objectives

- G 13
- O 13.1
- O 13.2
- O 13.3

Alternative:

Maintain existing infrastructure and lanes.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Bluestone Town Center (City Required Improvements)
Project Code: PWSTP63
Project Priority: Priority 2 **Project Type:** CONSTRUCTION **Start Date (FYE):** 2026
Department: 9101 **Status:** Active **Completion Date (FYE):** 2028

Description:

The improvements described have been agreed to with the Bluestone Town Center development through a Street Improvement Agreement, which is referenced in the rezoning proffers. Those improvements include the following items.

- Erickson Avenue (FY28) - Widen to include 2 (5') bike lanes, 2 through lanes, 1 left turn lane, 1 right turn lane and sidewalk. City will be responsible for 10% of the improvement costs.
- Erickson Avenue / Walmart Entrance (FY28)- Install a new traffic signal. City will be responsible for 80% of the signal installation costs.
- Erickson Avenue / Rockingham Family Physicians (RFP) (FY28) - Per agreements in place from previous right of way negotiations associated with the Erickson/Stone Spring project, the City will be responsible for construction of a new entrance into RFP off of the new subdivision street constructed as part of Bluestone Town Center. City will be responsible for 100% of the entrance construction cost.
- Hidden Creek Lane (FY26)- Construction of sidewalk along the southern side of Hidden Creek Lane from the Food Lion shopping center to the existing sidewalk near High Street. City will be responsible for 50% of the sidewalk construction cost.

Justifications:

Mandated
 x-Remove hazards
 Maintains service
 Increase efficiency
 Increase revenues
 x-Improves service
 New service
 Convenience
 Other

Goals and Objectives

G 13
 O 13.1
 O 13.2

Explanation:

These improvements were determined to be necessary following the completion of a Traffic Impact Analysis, which was performed as part of the rezoning process. In order to mitigate the determined impacts on existing City streets, the developer proffered these improvements and terms, which were accepted with the approval for the rezoning.

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Reservoir to Kiwanis Park Path

Project Code: PWSTP66

Project Priority: Priority 3

Project Type: ADDITION

Start Date (FYE): 2026

Department: 9101

Status: Active

Completion Date (FYE): 2027

Description:

Construct a 10' wide asphalt shared use path from end of Norwood Street to Kiwanis Park.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

This segment of SUP would provide an all weather bicycle and pedestrian connection to the Norwood/Kenmore/Franklin Street neighborhood to both Kiwanis Park and Spotswood Elementary School.

Alternative:

None.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Franklin Street Sidewalk

Project Code: PWSTP67

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2029

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

Construct a 5' wide concrete sidewalk along Franklin Street from the dead end to Reservoir Street and along Reservoir Street to Hawkins Street.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

This sidewalk would provide a safe, off road pedestrian facility for the neighborhood to access parks, schools, and commercial areas along Reservoir Street. In addition the rezoned property located between the dead end of Franklin Street and East Market Street will provide additional sidewalks within their development.

Alternative:

None.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Reservoir Street Median

Project Code: PWSTP69

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2028

Department: 9101

Status: Active

Completion Date (FYE): Beyond

Description:

The project will construct approximately 900 linear feet of variable width concrete median on Reservoir Street, between University Boulevard and Neff Avenue. The project will modify a private entrance to one business to ensure the entrance operates safely in the new configuration. Where the median is full width, landscaped plantings will be installed in the median. The project does not require roadway widening.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

This segment of Reservoir Street has been identified as a "potential for safety improvement" (PSI) location by VDOT, due to crashes that have occurred there. An evaluation was completed showing the safety benefits of constructing a median at this location.

Goals and Objectives

Alternative:

Maintain existing infrastructure and lanes.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: MLK Jr Way and East Market Street Improvements

Project Code: PWSTP70

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2029

Department: 9101

Status: Active

Completion Date (FYE): 2030

Description:

A VDOT-funded study is currently underway evaluating the following potential improvements.
 1) Extend the Shared Use Path (SUP) currently under construction along East Market Street one block north (approximately 500 linear feet) to the intersection with Carlton Street. Pedestrian improvements at the intersection of Carlton Street and East Market Street may also be needed.
 2) Construct either a path or sidewalk along Martin Luther King Jr. Way, between East Market Street and Reservoir Street. This project would connect to the path under construction along East Market Street and extend it one block west (approximately 1000 linear feet) to the intersection with Reservoir Street. Pedestrian improvements/accommodations at the intersections of Reservoir and East Market Street with Martin Luther King Jr. Way will also be needed.
 Potential application for VDOT Transportation Alternatives Program (TAP) funding.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Goals and Objectives

Explanation:

Construction is currently underway to create a safe route for people walking and biking along East Market Street, over I-81, between MLK Jr. Way and Burgess Road/Linda Lane. Pedestrian and bicycle infrastructure on streets leading to this path would ensure that those walking or biking on the path can access it safely.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Suter Street Drainage Improvements

Project Code: PWSWPR20

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2027

Department: 910541

Status: Active

Completion Date (FYE): 2028

Description:

Upgrade stormwater conveyance infrastructure within the Suter Street neighborhood as identified in a recently completed drainage study.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

This drainage improvement project was developed following the Suter Street community enrolled in the City's Drainage Improvement Program. The neighborhood spans from Charles Street to Washington Street, and from Jefferson Street to North Main Street. Public Works conducted a drainage study which demonstrated that improving the stormwater conveyance infrastructure within the neighborhood was the most practical solution in order to lessen the severity of heavy rain events.

Goals and Objectives

Alternative:

None.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Riven Rock Park Nature Center
Project Code: P&R 26-9
Project Priority: Priority 3 **Project Type:** ADDITION & RENOVATION **Start Date (FYE):** 2031
Department: 910771 **Status:** Active **Completion Date (FYE):** 2032

Description:

Build a new structure within Riven Rock Park and an indoor, interactive Nature Center.

Explanation:

Riven Rock Park is a natural outdoor haven for many residents. The park provides a unique opportunity to create a local educational destination for schools, summer Camps, etc. A lot of learning could take place for outdoor education there. This would not only benefit the city, but also Harrisonburg City Public Schools.

Alternative:

Continue to do outdoor education programs in the Parks/Rec Centers and not have a dedicated location.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Goals and Objectives

- G 12
- O 12.1
- O 12.2

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Outdoor Fitness Circuits

Project Code: P&R 26-2

Project Priority: Priority 3

Project Type: NEW

Start Date (FYE): 2027

Department: 910771

Status: Active

Completion Date (FYE): 2030

Description:

Construction and installation of outdoor fitness courts in designated park locations.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

Since the pandemic there has been an increase in usage and desire for individuals to be outside, and exercise outside. Outdoor fitness courts are a growing trend and promote the health and well being of individuals without the need for a membership to a facility. Funding for this project would be for the installation of outdoor fitness courts in two park locations to be determined.

Alternative:

Do nothing and maintain the current level of service offerings.

Goals and Objectives

- G 12
- O 12.1
- O 12.2

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Comprehensive Parks Master Plan
Project Code: P&R 26-1
Project Priority: Priority 2 **Project Type:** NEW **Start Date (FYE):** 2026
Department: 910771 **Status:** Active **Completion Date (FYE):** 2026

Description:

The 2013 Parks and Recreation Comprehensive Master Plan is in need of an update for the city in its role as a regional leader in the development and delivery of positive experiences through quality parks, recreation facilities, and programs. The citizen driven Master Plan establishes the Parks and Recreation Department's core services and responsibilities, redefines service priorities as well as important capital investments, and outlines the manner in which the parks and recreation facilities and program services will be delivered.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The goal of the Parks and Recreation Department is to become Nationally Accredited through CAPRA, the Commission for Accreditation of Parks and Recreation Agencies. The approved Comprehensive Parks and Recreation Master Plan update is a fundamental standard in the accreditation process. Becoming "Nationally Accredited" is a valuable measure of a department's overall quality of operation, management, and service to the community and ensures the use of best practices. There are presently 206 accredited agencies in the US and 13 in Virginia

Components of the plan to include:

Goals and Objectives

- G 12
- O 12.1
- O 12.2

- Strong community input to include public meetings, focus groups, interviews with key stakeholders and a statistically valid survey.
- Demographic and market trends analysis as well as ADA, equity considerations, and results from the childhood education needs assessment
- Facility and program needs assessment of the overall system to include a benchmark analysis
- Strategic direction and recommendations for service and capital investment priorities

Alternative:

Over the past 10 years Harrisonburg has grown in population and communities continue to change demographically with different needs. There is no alternative to a comprehensive master plan to ensure the wants and needs of the community are met.

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Heritage Oaks Golf Course - Bridge Replacement
Project Code: P&R 27-2
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** Future
Department: 730271 **Status:** Active **Completion Date (FYE):** Future

Description:

The golf course cart bridges at Heritage Oaks were built during original construction in 2000-2001. They were built with a wooden pole and wooden top decking design not in compliance with current engineering and building codes for either weight bearing or flood loading.

In the last two decades they have been displaced from their positions from flooding rain events multiple times. The bridges scheduled for replacement were displaced twice during the heavy rains of 2018.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Significant wear and tear resulted to the extent that the bridges cannot be repaired to provide safe passage by golfers. As we replace these structures they will be designed and constructed to meet current standards and applicable codes.

The new design developed by Monteverde Engineering incorporates a steel girder structure ensconced in anchored, concrete abutments, and topped with pressure treated decking and rails designed to withstand flooding loads and light vehicular traffic that travels the golf course paths.

Goals and Objectives

- G 12
- O 12.1
- O 12.2
- O 12.4

Alternative:

Do nothing.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Heritage Oaks Cart Path Paving

Project Code: P&R 26-7

Project Priority: Priority 2

Project Type: RENOVATION

Start Date (FYE): 2026

Department: 730271

Status: Active

Completion Date (FYE): 2027

Description:

Heritage Oaks Golf Course was constructed in 2001. HOGC has 2.5 miles of paved golf cart path on the 18 hole course.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

The 2.5 miles of golf cart path are deteriorating and cause safety issues to golf patrons while navigating the course. Paving of the cart pave would eliminate safety issues and improve services.

Alternative:

Do nothing and the paths continue to worsen beyond renovation type repairs.

Goals and Objectives

- G 12
- O 12.2
- O 12.4

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Smithland Athletic Complex Offices

Project Code: P&R 26-1

Project Priority: Priority 2

Project Type: CONSTRUCTION

Start Date (FYE): 2027

Department: 710871

Status: Active

Completion Date (FYE): 2028

Description:

The Smithland Athletic Complex is one of the Department's most heavily utilized amenities. The complex facilitates the Department's youth soccer leagues, youth football leagues, various other programs, and several user groups. Currently there are over 1,100 youth soccer participants annually, and over 150 youth football participants annually within the Department. Factor in parents and spectators, the facility receives a tremendous amount of visitors. An office for the Athletic Division would centralize operations at the complex.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

Constructing an office complex for the Athletics Division would better help centralize operations for participants and staff. The complex would house staff, and open additional storage. The addition of an office complex at Smithland would also open office space and storage at the Community Activities Center for an already congested facility. With the amount of use, this will also provide an increased presence at the complex for supervision.

Goals and Objectives

- G 12
- O 12.1
- O 12.2

Alternative:

If nothing is done, the Athletics Division would continue to be housed at the Community Activities Center in an overcrowded facility. Additional office space, storage space, and program space would continue to be a challenge.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land								\$0
Construction			\$580,000					\$580,000

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Smithland Athletic Complex Pad #3 Press Box
Project Code: P&R 12
Project Priority: Priority 3 **Project Type:** CONSTRUCTION **Start Date (FYE):** 2030
Department: 710871 **Status:** Active **Completion Date (FYE):** 2030

Description:

Pad #3 at the Smithland Athletic Complex is the field in which the Department's youth football program takes place during the fall season, and youth soccer during the spring season. There is currently no press box for game day operations and management. Staff and administrators currently work from a pop-up canopy on the sidelines.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

A press box on Pad #3 at the Smithland Athletic Complex would enhance the overall game experience for our visitors. This would provide better overall supervision, ability to announce games as we did formerly, provide an on-field workspace, and an add on-field storage space.

Goals and Objectives

Alternative:

If nothing is done, we will continue to operate from under a pop-up canopy for operations, continue with no announcing, and not have on-field storage space.

- G 12
- O 12.1
- O 12.2

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Multi-Use Aquatics Building

Project Code: P&R 26-1

Project Priority: Priority 3

Project Type: CONSTRUCTION

Start Date (FYE): 2027

Department: 710771

Status: Active

Completion Date (FYE): 2028

Description:

This pre-built multi-use structure would provide additional restrooms for guests to use, a classroom/conference room area for aquatics staff to teach courses such as swim lessons, lifeguarding, CPR, and water safety. The location for this building would be at the south end of the facility in the rarely used grassy area. It also would be capable of providing concessions for guests.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

Westover pool is utilized by many guests, renters, and user groups year-round. Having an additional space for them to use the restroom or change will alleviate congestion at the facility entrance and current locker room area. A dedicated classroom space will also allow aquatics staff to expand class sizes, quantity, of classes, and improve services provided without interrupting operations at the CAC.

Goals and Objectives

- G 12
- O 12.1
- O 12.2

Alternative:

Remodel the existing locker room and CAC/Pool entrance for better functionality and access. Remodel existing concession area. Continue providing a reduced number of class opportunities.

Expenditures:

	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land								\$0
Construction			\$575,000					\$575,000

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Westover Pool Jr. Olympic Dome Replacement

Project Code: P&R 24-6

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2030

Department: 710771

Status: Active

Completion Date (FYE): 2030

Description:

Replace existing dome structure and air lock entrances at Westover Pool.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The current dome was installed in 1990 and after over 30 years of wear and tear from operations, it has sustained some significant staining as well as damage to the plastic material. The current air lock entrance has been repaired numerous times but those repairs are holding for shorter periods of time with less efficiency. There are now tears in the structure that are visible to the outside.

Alternative:

Continue operation until the current dome is no longer structurally viable. If the dome fails, all winter operations will halt at that time.

Goals and Objectives

- G 12
- O 12.1
- O 12.2
- O 12.4

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Westover Pool Olympic Dome Deck Installation
Project Code: P&R 24-3
Project Priority: Priority 3 **Project Type:** IMPROVEMENT **Start Date (FYE):** 2026
Department: 710771 **Status:** Active **Completion Date (FYE):** 2026

Description:

This is for the installation of the footers in the decking to hold the bigger dome that was funded in FY24-25. The addition of indoor space from October through April of each year at Westover Pool would be beneficial for all of the cities growing aquatics programs.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- x-Increase revenues
- x-Improves service
- x-New service
- x-Convenience
- Other

Explanation:

Currently, a lot of user groups try to use the Westover Pool which causes programs to fill up and develop waiting lists. In the winter, with an increased demand for practice times for swim teams, and swim lessons that often fill up, more space could be utilized to fit in more time for each group. A pool dome over the Olympic Pool at Westover would open up more space for programs such as swim lessons and more space for high school and local swim teams to practice. In addition, more rec swim time could be added with additional space. Adding more available space to the Olympic Pool would set up Westover Pool with adequate space for the foreseeable future. With funding allocated for the purchase of the Olympic Dome, funds are needed to construct anchoring to the pool deck. This figure includes that.

Goals and Objectives

- G 12
- O 12.1
- O 12.2

Alternative:

Not expanding space for any of the above initiatives listed.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Simms HVAC Replacement

Project Code: P&R 24-4

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 710671

Status: Active

Completion Date (FYE): 2026

Description:

The Lucy F. Simms Continuing Education Center was built in 1938 with major additions added in 2003. The current HVAC system was replaced during the 2003 modifications.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

All HVAC components were installed in 2003 and are now in need of repair. Due to age, all current HVAC system components are failing, causing heating and cooling temperatures to fluctuate dramatically throughout the building regardless of the outside temperature. If the HVAC system is not replaced soon, unstable temperature and inconsistent humidity control in the Simms School building could lead to damage to the physical structure itself, including the appearance of mold and pests, corrosion of building components, damage to paint and varnishes, and damage to brick and concrete building materials.

Goals and Objectives

Alternative:

Maintain current operations.

Project Title: Simms Basketball Floor Replacement and Add Bleachers
Project Code: 26-5
Project Priority: Priority 3 **Project Type:** ADDITION & RENOVATION **Start Date (FYE):** 2028
Department: 710671 **Status:** Active **Completion Date (FYE):** 2028

Description:

This project would be a replacement of the gymnasium flooring at the Lucy F. Simms Center and addition of bleachers.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

The current gym flooring is a floating maple hardwood floor. The current flooring has experienced issues of expansion due to water damage on a significant portion of the flooring surrounding the playing court. Replacement would allow the water issues to be properly addressed, provide an adequate surface for play, and allow the addition of bleachers. All these serving the increased number of users from both the department and tenants of the facility.

Goals and Objectives

Alternative:

Continue to make repairs as possible until the court is unrepairable.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: CAC Gym Floor Replacement and Add Bleachers

Project Code: P&R 26-1

Project Priority: Priority 3

Project Type: RENOVATION

Start Date (FYE): 2027

Department: 710471

Status: Active

Completion Date (FYE): 2027

Description:

This project would be a replacement of the gymnasium flooring at the Community Activities Center and addition of bleachers.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

The current gym flooring is a rolled vinyl with heat welded seams. When it was installed in 2005, the flooring had an expected lifespan of 15 years. It has exceeded its lifespan and has developed dead spots in the flooring. A new solid surface flooring would be installed with the addition of bleachers to accommodate the increased demand by our growing athletic programs and general users.

Alternative:

Do nothing and let the surfacing deteriorate to the point it cannot be used.

Goals and Objectives

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: CAC Traffic Calming and Parking Lot Repaving

Project Code: P&R 24-7

Project Priority: Priority 3

Project Type: IMPROVEMENT

Start Date (FYE): 2028

Department: 710471

Status: Active

Completion Date (FYE): 2028

Description:

Traffic calming measures at the Community Activities Center to reduce cut-through traffic, improve traffic flow/safety, and add a drop off/unloading zone. The project would also include repaving of the main parking lot.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

The driveways entering and exiting the CAC are used as a "road" or short-cut to circumvent the traffic signal at Route 33 and Dogwood Drive. After a review by Public Works, it was determined that a new traffic flow pattern would minimize the cut-through traffic creating a safer environment for users of the CAC. This new traffic pattern would include traffic calming measures, better define entrances and exits, and create a designated drop off/pick up and unloading zone.

Goals and Objectives

Alternative:

Do nothing.

Project Title: Park Playground Replacement

Project Code: P&R 26-8

Project Priority: Priority 2

Project Type: REBUILD

Start Date (FYE): 2026

Department: 710271

Status: Active

Completion Date (FYE): 2028

Description:

Hillandale, Kiwanis, and Morrison Park Playgrounds consist of two separate playgrounds. One playground is designed for 2-5 year olds and the other playground is designed for 5-12 year olds.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

All three park playgrounds are over 25 years old. Design and safety standards are continuously changing and the need for replacement of these playgrounds is needed to provide safe and challenging play activities for 2-12 year olds in the City of Harrisonburg.

Proposed Order of Replacement:

- Hillandale playground '26
- Kiwanis Playground '27
- Morrison '28

Goals and Objectives

- G 12
- O 12.1
- O 12.2
- O 12.4

Alternative:

Continue maintenance and replacement of damaged play structures.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Sport Court Repair and Resurfacing

Project Code: P&R 26-3

Project Priority: Priority 2

Project Type: RENOVATION

Start Date (FYE): 2026

Department: 710271

Status: Active

Completion Date (FYE): 2030

Description:

This project is a deferred maintenance plan to renovate all of our outdoor sports courts throughout the parks system. This includes re-surfacing, crack replacement, re-paving and replacement of site amenities as needed.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- x-Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Explanation:

All of the outdoor sports courts surfacing was installed over 20 years ago. Maintenance and repairs of these surfaces has become more challenging and costly, in many instances needing annual repairs. This funding will allow the City to not only address annual maintenance but also properly address and fix issues with aging asphalt and sub bases.

Goals and Objectives

- G 12
- O 12.1
- O 12.2
- O 12.4

Order as of 2024 will be:

- Eastover Tennis Courts '26
- Ralph Sampson Basketball Courts '27
- Hillendale Basketball Court '28
- Kiwanis Basketball Court '29
- Morrison Pickleball surface and lights and Basketball Courts '30

Alternative:

Continue to re-surface courts as funding allows if they are not deteriorated beyond repair.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Park Parking Lot Renovations
Project Code: P&R 24-9
Project Priority: Priority 2 **Project Type:** RENOVATION **Start Date (FYE):** 2026
Department: 710271 **Status:** Active **Completion Date (FYE):** 2029

Description:

This project is a deferred maintenance plan to renovate all of our parking lots in our Parks and Recreation Department, both in parks and at our facilities.

The order of replacement will start as follows:

- Smithland Dog Park '26
- Smithland Athletic Complex' 27
- Simms Center '28
- Westover Park '29

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The parking lots in our City of Harrisonburg's Parks and Recreation Department have been deteriorating for years. Many of the lots are falling into disrepair and are cracking more and more each year. This starts the process, one parking area per year for the next roughly 7-10 years. The next parking area is at the Smithland Dog Park. The drive has crumbled to the point of being almost all gravel and mud. The driveway and small parking areas need paved to keep the park open and available to the public.

Goals and Objectives

- G 12
- O 12.1
- O 12.2

Alternative:

If we do nothing, the parking lots will continue to deteriorate and fall into further disrepair.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Park Restroom Replacements
Project Code: P&R 24-8
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2026
Department: 710271 **Status:** Active **Completion Date (FYE):** 2030

Description:

This project is a deferred maintenance plan to replace all of our restrooms in the current City of Harrisonburg Park System.

The remaining order of replacement is as follows:

- Westover Park '26
- Westover Park '27
- Riven Rock '28
- Purcell '29
- Hillandale Park '30

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The outdoor park restrooms in the City of Harrisonburg's Parks and Recreation Department have been deteriorating for years. Many of the Park restrooms are outdated, falling into disrepair, and are not able to stay open through the winter months. The biggest request we get from residents in the Parks and Recreation Department is to repair restrooms and make them useable year round. This starts that process, one restroom a year for the next 10-15 years.

The restrooms requested are the prototype that are now being installed at the Smithland Sports Complex, and to a smaller extent at Thomas Harrison Middle School. We will use the same restroom throughout the park system.

Goals and Objectives

- G 12
- O 12.1
- O 12.2
- O 12.4

Alternative:

If we do nothing, the restrooms become more and more dilapidated and older. The restrooms need addressed.

Total	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Westover Skate Park Phase B

Project Code: P&R 22-4

Project Priority: Priority 3

Project Type: REBUILD

Start Date (FYE): 2029

Department: 710271

Status: Active

Completion Date (FYE): 2029

Description:

This would be a Phase II to the ARPA funded replacement of Westover Skate Park as well as additional parking to accommodate an increase in users.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

ARPA funding was provided to replace the current skate park. This funding covered approximately 8,750 square feet of the 14,000 square feet available for construction. The request for additional funding includes features to be built on the approximately 5,250 square feet of space that was not initially constructed as well as additional parking that will be needed due to an increase in usage.

Goals and Objectives

- G 3
- O 3.1
- G 12
- O 12.1
- O 12.2
- O 12.4

Alternative:

This would make the skatepark have the same footprint as before the renovation to concrete was started. Without completing this phase, the park would remain much smaller than prior to the renovation with ARPA funds.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Irrigation Pond Repair

Project Code: P&R 26-1

Project Priority: Priority 2

Project Type: REPAIR

Start Date (FYE): 2026

Department: 730271

Status: Active

Completion Date (FYE): 2026

Description:

Irrigation pond repair. Irrigation pond has had a leak for over a year. It needs repaired.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The pond was built in 2001 and has been repaired two previous times. Two new leaks were discovered in 2023 causing the pond to lose about 3 feet of water that gets delivered to the golf course for irrigation purposes. This is detrimental to being able to irrigate especially in the summer months.

Alternative:

Do nothing, and continue to have irrigation supply problems.

Goals and Objectives

Project Code: DP20076

Project Priority: Priority 3

Project Type: NEW

Start Date (FYE): Beyond

Department: 810921

Status: Active

Completion Date (FYE): Beyond

Description:

Construct a new Public Safety Building parking deck in the location of the existing Public Safety Building parking lot. Parking deck would be provide 150 public safety spaces and 150 public spaces.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Security is an important aspect of any public safety building and providing separated secure parking facilities for both public safety vehicles, as well as public safety employee vehicles is important. This project would construct a new parking deck that would both accommodate secure levels for Public Safety staff usage, as well as parking levels that would be open to the general public.

Goals and Objectives

Project Title: Boiler Replacement at Harrisonburg High School

Project Code: HCPS824

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2029

Department: 1311

Status: Active

Completion Date (FYE): 2029

Description:

Replace boilers at Harrisonburg High School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The boilers are at the end of their life cycle.

Alternative:

Continue to maintain and repair boilers as needed.

Project Title: Roof Section Repair/Replacement at Harrisonburg High School

Project Code: HCPS1024

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2030

Department: 1311

Status: Active

Completion Date (FYE): 2030

Description:

Replace a roof section at Harrisonburg High School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

We must evaluate and replace roof sections in a proactive manner. We will identify the next roof section to be replaced during our next roof evaluation. The warrant expired in February 2020. Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed.

Project Title: Roof Repair/Replacement at Keister Elementary School (1980/1981)
Project Code: HCPS1624
Project Priority: Priority 2 **Project Type:** ADDITION & REPLACEMENT **Start Date (FYE):** 2026
Department: 1311 **Status:** Active **Completion Date (FYE):** 2026

Description:

Replace the "1980/1981 addition" roof section at Keister Elementary School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Replace the "1980/1981 addition" roof section at Keister Elementary School. On an annual basis we must replace and/or repair sections of Keister's roof as the majority was installed more than 20 years ago (warranty has expired). Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Boiler Replacement at Keister Elementary School

Project Code: HCPS4125

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 1311

Status: Active

Completion Date (FYE): 2026

Description:

Replace two boilers at Keister Elementary School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The life expectancy for the boilers are 25 years - both boilers were installed in 2000 (based on ASHRAE Equipment Life Expectancy). Our ability to secure replacement parts has become more difficult as equipment becomes obsolete and parts are not as readily available. Lead times for replacement of a boiler is 15+ weeks.

Alternative:

Continue to maintain and repair boilers as needed with potential service/education interruption.

Project Title: Elevator Replacement at Keister Elementary School

Project Code: HCPS4225

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2027

Department: 1311

Status: Active

Completion Date (FYE): 2027

Description:

Replace the elevator at Keister Elementary School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Replace the elevator at Keister Elementary School. Our ability to secure repair and secure replacement parts has become more difficult now that the computer and controllers are obsolete. Additionally, the warranty has expired.

Alternative:

Continue to maintain and repair elevator as needed with potential service/education interruption.

Project Title: MTC Renovation Request

Project Code: HCPS2124

Project Priority: Priority 2

Project Type: ADDITION & REPLACEMENT

Start Date (FYE): 2026

Department: 1311

Status: Active

Completion Date (FYE): 2026

Description:

Massanutten Technical Center (MTC) is in need of major structural and mechanical repairs. The amount of money requested is HCPS's share of the expense to renovate MTC.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

As a participating school division in the MTC program and as a member of the Executive Board, HCPS is responsible for contributing to the funding of MTC with Rockingham County Public Schools.

Alternative:

None.

Project Title: Purchase Land for 7th Elementary School

Project Code: HCPS2224

Project Priority: Priority 2

Project Type: ADDITION

Start Date (FYE): 2027

Department: 1311

Status: Active

Completion Date (FYE): 2027

Description:

Purchase land for a 7th elementary school or additional campus.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- x-New service
- Convenience
- Other

Explanation:

With anticipated enrollment growth and new housing developments in Harrisonburg we will need to construct a 7th elementary school.

Alternative:

Redistricting opportunities to reduce the enrollment for elementary schools that currently exceed effective capacity.

Exploration of increasing the capacity of elementary schools by building additions to those schools.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Roof Repair/Replacement at Spotswood Elementary School (Gym)

Project Code: HCPS2524

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2026

Department: 1311

Status: Active

Completion Date (FYE): 2026

Description:

Replace the gym roof section at Spotswood Elementary School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Replace the gym roof section at Spotswood Elementary School. On an annual basis we must replace and/or repair sections of Spotswood's roof as the majority was installed more than 20 years ago (warranty has expired). Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Code: HCPS2424
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2030
Department: 1311 **Status:** Active **Completion Date (FYE):** 2030

Description:

Replace the "North wing" roof section at Spotswood Elementary School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Replace two sections of the "North wing" roof section at Spotswood Elementary School. On an annual basis we must replace and/or repair sections of Spotswood's roof as the majority was installed more than 20 years ago (warranty has expired). Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Parking Lot Resurface at Spotswood Elementary School

Project Code: HCPS125

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 1311

Status: Active

Completion Date (FYE): 2028

Description:

Resurface the parking lot at Spotswood Elementary School

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The parking lot at Spotswood Elementary School needs to be resurfaced to extend the useful life of the parking lot and prevent costly repairs.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Electrical System Replacement at Spotswood Elementary School

Project Code: HCPS225

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 1311

Status: Active

Completion Date (FYE): 2028

Description:

Replace the electrical panels/system at Spotswood Elementary School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Replace the electrical panels and breakers at Spotswood Elementary School. Breakers and other replacement parts are no longer manufactured and are difficult to acquire.

Alternative:

Make repairs as needed with potential service/education interruption.

Goals and Objectives

G 7

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Project Title: Gym Floor at Spotswood Elementary School

Project Code: HCPS325

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2029

Department: 1311

Status: Active

Completion Date (FYE): 2029

Description:

Replace the gym floor at Spotswood Elementary School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The gym floor is original to the 1970 addition when the primary wing was built. The current hard floor surface is cracking - a softer surface would be more desirable to ensure the safety of our students, staff, and community who use the space.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Storefront Door Replacement at SMES & SKMS

Project Code: HCPS2924

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 1311

Status: Active

Completion Date (FYE): 2028

Description:

Replace the storefront doors at Smithland Elementary School (SMES) and Skyline Middle School (SKMS).

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The exterior doors at SMES & SKMS will need to be replaced due to their advanced rate of decline.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Roof Repair/Replacement at Skyline Middle School

Project Code: HCPS4525

Project Priority: Priority 2

Project Type: CONSTRUCTION

Start Date (FYE): 2029

Department: 1311

Status: Active

Completion Date (FYE): 2030

Description:

Replace a roof section at Skyline Middle School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

We must evaluate and replace roof sections in a proactive manner. We will identify the next roof section to be replaced during our next roof evaluation. The warranty expires on May 30, 2028. Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed.

Project Title: Auditorium/Stage Lighting and Controls at SKMS

Project Code: HCPS425

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 1311

Status: Active

Completion Date (FYE): 2028

Description:

Replace the auditorium/stage lighting and controls at Skyline Middle School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The auditorium/stage lighting and controls are in need of replacement. The system needs to be upgraded as replacement parts have become difficult to acquire.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Upgrade HVAC Controls at Stone Spring Elementary School

Project Code: HCPS3024

Project Priority: Priority 2

Project Type: SYSTEM UPGRADE

Start Date (FYE): 2026

Department: 1311

Status: Active

Completion Date (FYE): 2026

Description:

Upgrade HVAC controls at Stone Spring Elementary School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

HVAC controls are outdated and access by HVAC technician is limited.

Alternative:

Continue to maintain and repair controls as needed with potential service/education interruption.

- Other

Explanation:

Stone Spring Elementary School was constructed in 1993. After 30 years of use, it is time to renovate and refresh the classrooms by replacing the carpet with tile, painting the rooms, replacing the ceiling tile, installing LED lights, and replacing the classroom cabinets.

Alternative:

Continue to maintain and repair controls as needed with potential service/education interruption.

Project Title: Roof Repair/Replacement at Stone Spring Elementary School
Project Code: HCPS4825
Project Priority: Priority 2 **Project Type:** CONSTRUCTION **Start Date (FYE):** 2029
Department: 1311 **Status:** Active **Completion Date (FYE):** 2030

Description:

Replace a roof section at Stone Spring Elementary School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

We must evaluate and replace roof sections in a proactive manner. We will identify the next roof section to be replaced during our next roof evaluation. The warranty expired in July of 2003. Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Enhancements to Thomas Harrison Middle School

Project Code: HCPS3324

Project Priority: Priority 2

Project Type: RENOVATION

Start Date (FYE): 2027

Department: 1311

Status: Active

Completion Date (FYE): 2027

Description:

Enhancements and repairs to Thomas Harrison Middle School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Enhance Thomas Harrison Middle School to accommodate the current and future educational needs of our students as well as enhance their educational experiences. Classroom renovations to prepare students for the future as well as to ensure that the building is accessible by all students. THMS opened in 1989 with additions in 1994.

Alternative:

Continue current operations.

Project Title: Parking Lot Resurface at Thomas Harrison Middle School

Project Code: HCPS3424

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 1311

Status: Active

Completion Date (FYE): 2028

Description:

Resurface the parking lot at Thomas Harrison Middle School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The parking lot at Thomas Harrison Middle School needs to be resurfaced to extend the useful life of the parking lot and prevent costly repairs.

Alternative:

Continue filling cracks in the pavement and make repairs as necessary to the asphalt.

Project Title: Auditorium/Stage Lighting and Controls at THMS

Project Code: HCPS525

Project Priority: Priority 2

Project Type: REPLACEMENT

Start Date (FYE): 2028

Department: 1311

Status: Active

Completion Date (FYE): 2028

Description:

Replace the auditorium/stage lighting and controls at Thomas Harrison Middle School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The auditorium/stage lighting and controls are in need of replacement. The system needs to be upgraded as replacement parts have become difficult to acquire.

Alternative:

Make repairs as needed with potential service/education interruption.

Project Title: Classroom Renovations at Waterman Elementary School

Project Code: HCPS5025

Project Priority: Priority 2

Project Type: RENOVATION

Start Date (FYE): 2026

Department: 1311

Status: Active

Completion Date (FYE): 2026

Description:

Renovate the classrooms in the primary wing at Waterman Elementary School.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The primary wing was constructed in 1983. After 40 years of use, it is time to renovate and refresh the classrooms by replacing the carpet with tile, painting the rooms, replacing the ceiling tile, installing LED lights, and replacing the classroom cabinets.

Alternative:

Continue current operations.

Project Title: Roof Repair/Replacement at Waterman Elementary School (Ed. Wing)
Project Code: HCPS3724
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2026
Department: 1311 **Status:** Active **Completion Date (FYE):** 2026

Description:

Replace the "Educational Wing" roof section at Waterman Elementary School.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Replace the "educational wing" roof section at Waterman Elementary School. On an annual basis we must replace and/or repair sections of Waterman's roof as the majority was installed more than 20 years ago (warranty has expired). Evaluate feasibility of installing solar facilities or to become solar ready.

Alternative:

Make repairs as needed with potential service/education interruption.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: WESTERN RAW WATERLINE (910161-48621)
Project Code: proj202
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 1995
Department: 2011 **Status:** Active **Completion Date (FYE):** 2046

Description:

Harrisonburg Public Utilities formats its Capital Improvement Program (CIP) to provide funding for two applications:

1. Capital Rehabilitation and Retirement (R&R):
R&R is the retirement of existing assets at an optimum time near the end of their life cycle but with opportunity to avoid ancillary financial, social or environment burden. The HPU CIP process uses asset retirement date forecasts made from known installation dates and from Manufacturer's Anticipated Service Life (MASL). The CIP process provides Future Asset Replacement Cost (FARC) by inflating the Current Asset Replacement Cost (CARV) by two-and-one-half percent annually to the retirement date.

2. Capital Expansion (Expansion):
Expansion is the addition of new assets with the purpose of expanding service, capacity, functionality or strategy of operations.

NOTE:
Because rates cannot be adjusted annually to meet the schedule of fluctuating costs, HPU determines the sum and the uniform funding that is required throughout the immediate upcoming 25 years period. The latter is the Annual Cost of Sustainable Service Operation (ACSO) and is used for funding and expense scheduling. Adjustments are made when rates will not support the ACSO or when expenses are significant to require debt.

Justifications:

Mandated
x-Remove hazards
x-Maintains service
x-Increase efficiency
x-Increase revenues
x-Improves service
New service
Convenience
Other

Goals and Objectives

G 14
O 14.1

Explanation:

R&R: The City strives to provide a level of service such that assets do not fail more than once per 10 year period. Failure modes vary, but generally are expressed in terms of a loss or decrease in service to the customer. Assets that do not meet this 10 year level of service are targeted for replacement under R&R. Targeted modes of failure include: Structural, Capacity, and Obsolescence. Asset replacements are sometimes grouped with other local projects to take advantage of opportunities to share costs or minimize repeat impacts to the project area.
100% CARV = \$59,020,517
NBV = \$25,651,700
25 Yr FARC = \$1,102,585 (expansion projects eliminate 12" pipe R&R ACSO)
25 Yr ACSO = \$44,103 per year
ENR = 13,556

EXPANSION PROJECTS:
Route 33 Asset Management Plan-Raw Water Component
Complete 30" raw waterline from Bellview to Cooper's Mountain Road
...Phase 3.1: Bellview to 5260 Rawley Pike -- \$2.0M-Assumes project occurs 2025
...Phase 3.2: 5260 Rawley Pike to VPGC --\$3.0M-2034
...Phase 4: VPGA to Cooper's Mountain Road --\$17.3-2035 (Bond Funded)
Virginia Water Withdrawal Permit (VWWP) Compliance
...DRI aquatic screens -- \$3.75M - 2026 (Bond Funded)
...NRI aquatic screens -- \$3.75M - 2026 (Bond Funded)

North River Corrosion Mitigation Projects
...2021-2032 Anodes on 20" pipe \$80K per year
ENVIRONMENTAL/SUSTAINABILITY: Water Supply from the Dry River water source has inherent environmental and sustainable value from an energy management perspective. As the pipe delivery size is expanded from 16" diameter to 24" or 30", each additional 1 million gallon delivered will save 2,200 to 3,500 kW-hrs of electricity.

Alternative:

Accept the risk of pipeline failures, loss of service and increased repair cost.

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Rural Potable Projects (910161-48670)
Project Code: proj213
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 2008
Department: 2011 **Status:** Active **Completion Date (FYE):** 2046

Description:

Harrisonburg Public Utilities formats its Capital Improvement Program (CIP) to provide funding for two applications:

1. Capital Rehabilitation and Retirement (R&R):
 R&R is the retirement of existing assets at an optimum time near the end of their life cycle but with opportunity to avoid ancillary financial, social or environment burden. The HPU CIP process uses asset retirement date forecasts made from known installation dates and from Manufacturer's Anticipated Service Life (MASL). The CIP process provides Future Asset Replacement Cost (FARC) by inflating the Current Asset Replacement Cost (CARV) by two-and-one-half percent annually to the retirement date.

2. Capital Expansion (Expansion):
 Expansion is the addition of new assets with the purpose of expanding service, capacity, functionality or strategy of operations.

NOTE:
 Because rates cannot be adjusted annually to meet the schedule of fluctuating costs, HPU determines the sum and the uniform funding that is required throughout the immediate upcoming 25 years period. The latter is the Annual Cost of Sustainable Service Operation (ACSO) and is used for funding and expense scheduling. Adjustments are made when rates will not support the ACSO or when expenses are significant to require debt.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Goals and Objectives

G 14
O 14.1

Explanation:

R&R: The City strives to provide a level of service such that assets do not fail more than once per 10 year period. Failure modes vary, but generally are expressed in terms of a loss or decrease in service to the customer. Assets that do not meet this 10 year level of service are targeted for replacement under R&R. Targeted modes of failure include: Structural, Capacity, and Obsolescence. Asset replacements are sometimes grouped with other local projects to take advantage of opportunities to share costs or minimize repeat impacts to the project area.

100% CARV = \$47,415,464
 NBV = \$14,853,767
 25 Yr FARC = \$9,005,723
 25 Yr ACSO = \$360,229 per year
 ENR = 13,556

EXPANSION PROJECTS:
 Risk Management Loops = \$40,000: 2025-2028
 16" Conversion, Phase 3 = \$50,000: 2025-2034
 16" Conversion Phase 4 = \$250,000: 2035
 CMZ 10" Replacement = \$300,000: 2025-2027 & \$198,218: 2028

FUNDING STRATEGY:
 R&R = \$360,229/yr: (2026-2050)
 Expansion = Varies/yr: (2026-2035)

Alternative:

Accept the risk of pipeline failures, loss of service and increased repair costs.

100% CARV = \$22,057,178
 NBV = \$13,213,811
 25 Yr CARV = \$882,287
 25 Yr FARC = \$2,323,783
 25 Yr ACSO = \$92,951 per year
 ENR = 13,556

EXPANSION: The current Grandview Water Treatment Plant is expected to require expansion in 2044 at \$9.2M; this might include a satellite plant at Riven Rock Park.

ENVIRONMENTAL/SUSTAINABILITY: The water treatment plant will have future CIP allocations to become and operate more sustainable. A continuous energy management program is ongoing to determine where operating efficiency can be improved. A software has previously been purchased to optimize pumping efficiency from its raw water pump station. We will also continue to investigate and pursue new SCADA configurations and software for optimizing water source selection and efficiency. System sustainability is by asset management practices.

Alternative:

None.

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Facilities (910161-48757)
Project Code: wat210
Project Priority: Priority 2 **Project Type:** ADDITION & RENOVATION **Start Date (FYE):** 2009
Department: 2011 **Status:** Active **Completion Date (FYE):** 2046

Description:

Harrisonburg Public Utilities formats its Capital Improvement Program (CIP) to provide funding for two applications:

- 1. Capital Rehabilitation and Retirement (R&R):**
 R&R is the retirement of existing assets at an optimum time near the end of their life cycle but with opportunity to avoid ancillary financial, social or environment burden. The HPU CIP process uses asset retirement date forecasts made from known installation dates and from Manufacturer's Anticipated Service Life (MASL). The CIP process provides Future Asset Replacement Cost (FARC) by inflating the Current Asset Replacement Cost (CARV) by two-and-one-half percent annually to the retirement date.
- 2. Capital Expansion (Expansion):**
 Expansion is the addition of new assets with the purpose of expanding service, capacity, functionality or strategy of operations.

NOTE:
 Because rates cannot be adjusted annually to meet the schedule of fluctuating costs, HPU determines the sum and the uniform funding that is required throughout the immediate upcoming 25 years period. The latter is the Annual Cost of Sustainable Service (ACSO) and is used for funding and expense scheduling. Adjustments are made when rates will not support the ACSO or when expenses are significant to require debt.

Justifications:

Mandated
 Remove hazards
 Maintains service
 x-Increase efficiency
 Increase revenues
 Improves service
 New service
 x-Convenience
 x-Other

Goals and Objectives

G 14
 O 14.1

Explanation:

R&R: HPU staff intends to manage the WOC building and grounds to sustain functionality and safety of the facilities. The Facility is divided into Structural, Mechanical, Electrical and Plumbing categories. Assets within each category will be replaced as needed to sustain safe operations. (ALL R&R EXPENSES ARE SHARED EQUALLY BETWEEN WATER AND SEWER) System sustainability is by asset management practices.

100% CARV = \$5,761,579
 NBV = \$2,742,584
 25 Yr CARV = \$1,828,757
 25 Yr FARC = \$250,000 Allowance
 25 Yr ACSO = \$10,000 per year
 ENR = 13,556

EXPANSION PROJECTS: HPU is planning the future expansion (\$1M - 2035) of the Operations Center to include a drive-thru service window and additional restroom space for field staff, alternative field staff accommodations, and retrofit into offices. Expansion at \$1M water (\$2M total) is cash funded equally and uniformly in water and sewer: 2026-2035.

FUNDING STRATEGY:
 R&R = \$10,000/yr: (2026-2050)
 Expansion = \$100,000/yr (2026-2035)

Alternative:

DRAFT

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Raw Water Supply Drought Sources
Project Code: proj251
Project Priority: Priority 2 **Project Type:** NEW **Start Date (FYE):** 2025
Department: 2011 **Status:** Active **Completion Date (FYE):** 2035

Description:

Harrisonburg Public Utilities formats its Capital Improvement Program (CIP) to provide funding for two applications:

1. Capital Rehabilitation and Retirement (R&R):
R&R is the retirement of existing assets at an optimum time near the end of their life cycle but with opportunity to avoid ancillary financial, social or environment burden. The HPU CIP process uses asset retirement date forecasts made from known installation dates and from Manufacturer's Anticipated Service Life (MASL). The CIP process provides Future Asset Replacement Cost (FARC) by inflating the Current Asset Replacement Cost (CARV) by two-and-one-half percent annually to the retirement date.

2. Capital Expansion (Expansion):
Expansion is the addition of new assets with the purpose of expanding service, capacity, functionality or strategy of operations.

NOTE:
Because rates cannot be adjusted annually to meet the schedule of fluctuating costs, HPU determines the sum and the uniform funding that is required throughout the immediate upcoming 25 years period. The latter is the Annual Cost of Sustainable Service (ACSO) and is used for funding and expense scheduling. Adjustments are made when rates will not support the ACSO or when expenses are significant to require debt.

Justifications:

- x-Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- x-New service
- Convenience
- x-Other

Goals and Objectives

G 14
O 14.1

Explanation:

The guideline document "Raw Water Supply Management Plan, 10th edition" cites the need for HPU to acquire 3.4 MGD of additional drought reliable raw water supply between 2030 and 2037 pending a one percent (1%) to two percent (2%) growth rate in water use. The concept is in the early planning stages where various options are under evaluation. The permitting to acquire additional water supply sources could be lengthy.

R&R: The City strives to provide a level of service such that assets do not fail more than once per 10 year period. Not applicable to this project at this time.

Expansion Projects:
Options for acquiring the additional 3.4 MGD raw water supply include 1) using Frazier Quarry as an offline storage facility, 2) groundwater wells and piping in the South Fork Shenandoah River watershed, 3) groundwater wells and piping in the Dry River / North River watershed, 4) replacing Silver Lake Pump Station and 5) automating releases and volume controls from Switzer Lake.

Funding Strategy:
The project cost level is only at the "Order of Magnitude" level. Funding for project(s) will most likely be from borrow as supported by revenue from the sale of potable water. One of the alternatives, the Frazier Quarry Project, may have opportunity to pursue reclamation funding grants.

Environmental Sustainability:
This project has significant environmental sustainability to the North River, Dry River, and South Fork Shenandoah River as determined by standards set by the Virginia Department of Environmental Quality. The three surface waters are provided instream flow protection during low flow periods. The protection is in the format of water withdrawal restriction set in the Harrisonburg Virginia Water Withdrawal Permit (VWWP). These additional raw water sources will allow HPU to meet the restrictions of the permit and simultaneously meet the water supply business goals. System sustainability is by asset management practices.

Alternative:

Revise the water supply business model from 15.0 MGD to 121.66 MGD

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: BLACKS RUN INTERCEPTOR UPGRADE PROG (911161-48641)
Project Code: sew203
Project Priority: Priority 2 **Project Type:** REPLACEMENT **Start Date (FYE):** 1991
Department: 2012 **Status:** Active **Completion Date (FYE):** 2046

Description:

Harrisonburg Public Utilities formats its Capital Improvement Program (CIP) to provide funding for two applications:

1. Capital Rehabilitation and Retirement (R&R):
 R&R is the retirement of existing assets at an optimum time near the end of their life cycle but with opportunity to avoid ancillary financial, social or environment burden. The HPU CIP process uses asset retirement date forecasts made from known installation dates and from Manufacturer's Anticipated Service Life (MASL). The CIP process provides Future Asset Replacement Cost (FARC) by inflating the Current Asset Replacement Cost (CARV) by two-and-one-half percent annually to the retirement date.

2. Capital Expansion (Expansion):
 Expansion is the addition of new assets with the purpose of expanding service, capacity, functionality or strategy of operations.

NOTE:
 Because rates cannot be adjusted annually to meet the schedule of fluctuating costs, HPU determines the sum and the uniform funding that is required throughout the immediate upcoming 25 years period. The latter is the Annual Cost of Sustainable Service Operation (ACSO) and is used for funding and expense scheduling. Adjustments are made when rates will not support the ACSO or when expenses are significant to require debt.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- Increase efficiency
- x-Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Goals and Objectives

G 14
O 14.2

Explanation:

R&R: The City strives to provide a level of service such that assets do not fail more than once per 10 year period. Failure modes vary, but generally are expressed in terms of a loss or decrease in service to the customer. Assets that do not meet this 10 year level of service are targeted for replacement under R&R. Targeted modes of failure include: Structural, Capacity, and Obsolescence. Asset replacements are sometimes grouped with other local projects to take advantage of opportunities to share costs or minimize repeat impacts to the project area.

100% CARV = \$50,881,206
 NBV = \$29,458,292
 25 Yr CARV = \$2,571,475
 25 Yr FARC = \$2,751,480
 25 Yr ACSO = \$102,859 per year
 ENR = 13,556

EXPANSION PROJECTS:
 ILOS Flow Monitor 5yr Update: \$100,000; in 2030, 2035, 2040, 2045, 2050
 ILOS Current 10 yr 24-hr storm: TBD
 ILOS Buildout 10 yr 24-hr storm; TBD

Note:
 RJN hydraulic analysis identified 143 pipes and 8 manholes under capacity for current 10-year LOS
 RJN hydraulic analysis identified 175 pipes and 8 manholes under capacity for full buildout 10-year LOS.

ENVIRONMENTAL/SUSTAINABILITY: Reduction of infiltration and inflow into the sanitary sewer collection system will increase environmental sustainability by reducing the amount of required wastewater treatment processes. Wastewater treatment generates carbon through electrical consumption, sludge treatment/disposal, and chemical usage. Upgrades to the public sanitary sewer collection system will reduce infiltration and inflow.

Alternative:

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: School Bus Parking Lot Expansion

Project Code: HDPT SB

Project Priority: Priority 2

Project Type: IMPROVEMENT

Start Date (FYE): 2026

Department: 622081

Status: Active

Completion Date (FYE): 2026

Description:

School bus parking expansion to cater for increased school buses due to construction of a new high school and the need for electric school bus infrastructure.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- x-New service
- Convenience
- Other

Explanation:

HDPT needs additional space to park/charge expansion school buses some of which will be electric buses at our facility. This will cater for additional growth needs in the future and ensure that the buses are safe and secure within the department's property.

Alternative:

None.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: School Bus IT

Project Code: Trans 07

Project Priority: Priority 2

Project Type: SYSTEM UPGRADE

Start Date (FYE): 2026

Department: 622081

Status: Active

Completion Date (FYE): 2026

Description:

Anticipated replacement or upgrade of current camera system.

Justifications:

- Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

Getting to the end of the contractual years for the school bus camera system. New RFP will be put out for a new camera system that will be installed on all school buses including activity buses.

Alternative:

Continue using current system (not recommended)

Goals and Objectives

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: SCHOOL BUSES
Project Code: trans2
Project Priority: Priority 2 **Project Type:** ADDITION & REPLACEMENT **Start Date (FYE):** ONGOING
Department: 622081 **Status:** Active **Completion Date (FYE):** ONGOING

Description:

School buses are recommended to be replaced 10-12 years (150,000 miles). Replacement and expansion buses needed with the construction of Rocktown High School. Exact amount of expansion buses has not been determined yet. Gradual expansion in number of school buses is recommended to mitigate costs to tax payers and ensure timely delivery.

Justifications:

Mandated
 Remove hazards
 x-Maintains service
 x-Increase efficiency
 Increase revenues
 x-Improves service
 New service
 Convenience
 Other

Explanation:

Federal & State EPA guidelines are becoming stronger to replace buses in 10 to 12 years. Currently the Department has approximately 32 buses that are beyond 12 years. Electric buses will be considered with infrastructure and bus grant monies and the replacement schedule will be updated at that time. Received EPA grant for Three electric school buses. EPA grant application is ongoing. Will receive \$200,000 from EPA for each electric bus to offset costs so additional City funding is required.

Goals and Objectives

G 13
O 13.2

Alternative:

Limited to no alternatives with the construction of the new high school. Operating costs will continue to rise taking into consideration current driver shortage.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Transfer Center

Project Code: trans05

Project Priority: Priority 2

Project Type: CONSTRUCTION

Start Date (FYE): 2026

Department: 812081

Status: Active

Completion Date (FYE): 2026

Description:

Buy land for transit/transfer center and park and ride with waiting area.

Justifications:

- Mandated
- x-Remove hazards
- x-Maintains service
- x-Increase efficiency
- Increase revenues
- x-Improves service
- New service
- x-Convenience
- Other

Explanation:

Land is needed for a new transit/transfer center with a park and ride. This is identified in HDPT's Transit Strategic Plan. Feasibility study completed in FY2022. Need to purchase land to make the project viable for a smart scale application.

Alternative:

Continue as we are now.

Goals and Objectives

G 13

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total
Planning								\$0
Land		\$1,500,000						\$1,500,000

Total	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: TRANSIT BUSES
Project Code: trans1
Project Priority: Priority 2 **Project Type:** ADDITION & REPLACEMENT **Start Date (FYE):** ONGOING
Department: 812081 **Status:** Active **Completion Date (FYE):** ONGOING

Description:

FY 2026 4 transit replacements,
 FY 2027 2 para transit replacements
 FY 2028 5 transit, 1 expansion paratransit
 FY 2029 8 transit replacements
 FY 2030 2 Expansion Paratransit

Justifications:

Mandated
 Remove hazards
 x-Maintains service
 x-Increase efficiency
 Increase revenues
 x-Improves service
 New service
 Convenience
 Other

Explanation:

Para transit buses will be low floor buses that will have a useful life of 10 years or 150,000 miles.
 Transit buses to be replaced have a useful life of 12 years or 500,000 miles, however, the state has put in place a new Capital prioritization process that takes into consideration age and mileage of transit buses to be replaced. Looking at micro transit service that will requires some additional vehicles withing the next few years

Goals and Objectives

G 13
 O 13.2

Alternative:

Cut service. Try to keep old buses running, maintenance costs will continue to rise because of the new State Capital prioritization process. HDPT normally meets the 12 years but hardly ever runs buses to 500,000 miles. Level of service will drop and number of road calls will continue to rise.

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Employee Parking Lot Expansion
Project Code: HDPT PL
Project Priority: Priority 3 **Project Type:** ADDITION & RENOVATION **Start Date (FYE):** 2026
Department: 872081 **Status:** Active **Completion Date (FYE):** 2026

Description:

Employee parking lot expansion to cater for increased number of employees needed for HDPT operations.

Justifications:

- Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- x-Convenience
- Other

Explanation:

HDPT needs additional space for employee parking to meet the increased need for staff needed for both transit and school bus operations. This will cater for additional growth needs in the future and ensure that the employees have a place to park when they come to work.

Alternative:

Continue as we are now.

Project Title: City Landfill Closure & Monitoring 910142-48681

Project Code: PWSLCBG

Project Priority: Priority 1

Project Type: ADDITION

Start Date (FYE): 2010

Department: 922041

Status: Active

Completion Date (FYE): Ongoing

Description:

Cost of closing, maintenance, and monitoring of landfill per DEQ regulations.

- (A) Annual monitoring/testing and engineering costs for gas and groundwater.
- (B) Groundwater injections that are outlined in the landfill closure documents.

Justifications:

- x-Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

DEQ regulations require a program for closing existing landfill and monitoring groundwater and gas generation for 30 year period following DEQ closure approval.

Alternative:

None.

Goals and Objectives

G 14

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: SWM Equipment Replacement

Project Code: SWMER01

Project Priority: Priority 1

Project Type: REPLACEMENT

Start Date (FYE): 2024

Department: 472041

Status: Active

Completion Date (FYE): Beyond

Description:

Future replacement of Ravo Sweepers.

Justifications:

- x-Mandated
- Remove hazards
- x-Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

These vehicles provide credits towards the City's MS4 requirements, and they need to be operational at all times. As the equipment ages, it will be important to keep the fleet in good working order, so that these credits can be maintained at an appropriate level.

Alternative:

Without replacement of this equipment when needed, the City would need to spend more funds on different BMP's in order to compensate for the loss of the credits generated by this equipment.

Goals and Objectives

G 14
O 14.3

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Temporary Credit Purchases

Project Code: PWSWPR11

Project Priority: Priority 2

Project Type: NEW

Start Date (FYE): 2023

Department: 910541

Status: Active

Completion Date (FYE): 2026

Description:

The City has established a contract with HRRSA to begin purchasing annual Nitrogen, Phosphorus, and Sediment credits beginning 2023 to assist with Chesapeake Bay TMDL compliance requirements for the second and third permit cycles.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

Temporary credits must be purchased annually and do not last year to year like permanent credits or projects. Credit availability through HRRSA is unstable due to HRRSA's similarly changing regulatory requirements. The cost of these nutrients are significantly less than permanent credits.

Alternative:

Pursue projects, permanent credits, and programs as identified in the Stormwater Improvement Plan.

Goals and Objectives

G 14
O 14.3

Expenditures:	Prior	2026	2027	2028	2029	2030	Future	Total

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: Permanent Credit Purchases
Project Code: PWSWPR12
Project Priority: Priority 2 **Project Type:** NEW **Start Date (FYE):** 2020
Department: 910541 **Status:** Active **Completion Date (FYE):** 2026

Description:

The City has selected several bidders that responded to an Invitation to Bid. Through the lifespan of the contract, the City will have an opportunity annually to purchase permanent credits through these bidders for Nitrogen, Phosphorus, or Sediment. The contract will last for one year prior to renewal.

Justifications:

- x-Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- x-Other

Explanation:

Permanent credits are managed by "nutrient banks" and may include stream restorations or land conversions within our designated watershed area. The cost per pound is much higher than temporary credits, but last in perpetuity with no maintenance or additional costs after the initial purchase. The City will purchase credits when the cost per pound of nutrient reduction is comparable or lower than completing a project. Additionally, credits may be purchased to lessen the number of projects being implemented in a given year.

Goals and Objectives

G 14
O 14.3

Alternative:

Pursue more expensive projects as identified in the Stormwater Improvement Plan.

Project Title: Waterman Drive Drainage and Water Quality Improvement
Project Code: PWSWPR14
Project Priority: Priority 2 **Project Type:** IMPROVEMENT **Start Date (FYE):** Beyond
Department: 910541 **Status:** Active **Completion Date (FYE):** Beyond

Description:

Waterman Drive has a history of drainage challenges. A water quality and quantity project was identified in the Stormwater Improvement Plan. After the heavy summer rains, a property owner reached out about frontage improvements in this same project location. Additionally, Public Works has been in contact with property owners along the opposite side of the street. Public Works is interested in pursuing preliminary design and eventual construction for drainage improvements and water quality enhancements along either side of Waterman Drive.

Justifications:

- Mandated
- x-Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

This project could assist the City in meeting the Chesapeake Bay and local Special Conditions of the MS4 permit.

Goals and Objectives

Alternative:

Pursue water quantity projects along Waterman Drive that do not include water quality components.

Project Code: PWSWPR22

Project Priority: Priority 2

Project Type: NEW

Start Date (FYE): 2027

Department: 910541

Status: Active

Completion Date (FYE): Beyond

Description:

The project would be a land use conversion practice that would replace approximately 80-100 acres of pasture, hay, and crop fields into a forested land cover.

Justifications:

- x-Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- Improves service
- New service
- Convenience
- Other

Explanation:

The project is a stormwater Best Management Practice (BMP) that will be used to achieve credits towards our Chesapeake Bay TMDL 2028 compliance targets as stipulated in our MS4 permit. The project costs include repaying a portion of the Sewer Fund for the land. The project costs also include establishment and maintenance of the site during the first 3-5 years after initial planting to provide invasive species management and replacement of trees that did not survive.

Goals and Objectives

Alternative:

Complete another project elsewhere to achieve required Chesapeake Bay TMDL 2028 compliance targets.

Capital Improvement Program FY2026 thru FY2030 Project Request Form

Project Title: West Market BMPs Retrofit
Project Code: PWSWPR23
Project Priority: Priority 2 **Project Type:** REBUILD **Start Date (FYE):** 2027
Department: 910541 **Status:** Active **Completion Date (FYE):** 2028

Description:

The project would retrofit two existing stormwater detention ponds converting them to wet ponds to achieve additional pollutant reductions towards our Chesapeake Bay TMDL 2028 compliance targets.

Justifications:

- x-Mandated
- Remove hazards
- Maintains service
- Increase efficiency
- Increase revenues
- x-Improves service
- New service
- Convenience
- Other

Explanation:

The project is a stormwater Best Management Practice (BMP) retrofit that will be used to achieve credits towards our Chesapeake Bay TMDL 2028 compliance targets as stipulated in our MS4 permit. The two existing detention ponds are located on City owned property.

Alternative:

Complete another project elsewhere to achieve required Chesapeake Bay TMDL 2028 compliance targets. Selecting another project may be more expensive.
